NOVEMBER HIGHLIGHTS:

In total, 48,730 beneficiaries in the 9 camps in Kurdistan Region of Iraq (KRI) received assistance through WFP food vouchers. The voucher transfer values in November were maintained at 22,300 IQD per person for extremely food insecure families, while moderately food insecure families received 11,700 IQD per person.

As part of its commitment to affected populations, WFP continued to receive feedback from families who recently moved into the refugees camps and made arrangements to assess their food security status. Based on the results from these assessments and families who meet the additional vulnerability criteria agreed upon with UNHCR and WFP management in September, these new arrival families will be provided assistance.

World Vision Kurdistan completed the data collection for the food security and vulnerability assessment among Syrian refugees living in the community. Once data cleaning and analysis is completed, a preliminary presentation of findings will be made to WFP. Presentation to key stakeholders will be scheduled in January 2016.

For the eighth month this year, WFP was unable to deliver food commodities to Al Obaidi camp and distributions of individual food parcels did not take place.
