

FACTSHEET – ECUADOR REFUGEE AND MIGRANT RESPONSE PLAN

CONTEXT AND BUDGETARY APPEAL

In the context of the regional response to the Venezuela situation, Ecuador's Refugee and Migrant Response Plan (RMRP) forms an integral part of the regional plan of agencies of the United Nations and other distinct non-governmental organizations (NGOs). Brazil, Colombia, Peru, the Caribbean and the Southern Cone are included in this one-year plan, beginning in January 2019.

The total budgetary appeal for Ecuador's 2019 RMRP amounts to **USD 117.3 million**.

POPULATION IN NEED IN 2019

In 2019, the total population in need in Ecuador comes to **1.26 million people**, of which there are approximately:

- **634,000** in transit;
- **414,000** expected to remain in Ecuador;
- **209,000** members of the host community.

STRUCTURE OF THE PLAN

Coordination will be provided by the Working Group for Refugees and Migrants, with IOM and UNHCR supporting the implementation of activities and establishing links with existing coordination structures and other relevant plans. The plan comprises four areas of intervention, with specific objectives, indicators and activities within each. Each of the areas of intervention have the following strategic objectives:

Area of intervention 1: Ensure that refugees and migrants are provided with life-saving assistance.

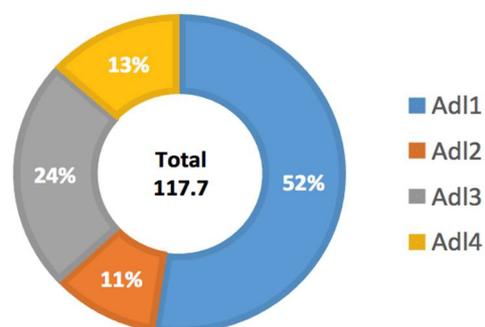

Area of intervention 2: Provide protection and enable access to rights.

Area of intervention 3: Promote self-reliance and the social, cultural and economic inclusion of Venezuelan refugees and migrants.

Area of intervention 4: Strengthen the capacity of the host government to respond to the increasing arrivals of Venezuelan refugees and migrants.

In all areas of intervention, the response plan will seek to build on and reinforce links with the government's response plan, ensuring complementarity whenever and wherever possible.

BUDGET PER AREA OF INTERVENTION

1. **DIRECT EMERGENCY ASSISTANCE:** 52% of the total budget, amounting to USD 61.5 million
2. **PROTECTION:** 11% of the total budget, amounting to USD 12.5 million
3. **SOCIOECONOMIC AND CULTURAL INTEGRATION:** 24% of the total budget, amounting to USD 27.7 million
4. **STRENGTHENED GOVERNMENT INSTITUTIONS:** 13% of the total budget, amounting to USD 15.7 million

Looking to 2019, the humanitarian response will seek to meet the needs of Venezuelan refugees and migrants, along with those of the affected host community, combining an emergency focus (areas 1 and 2) with activities aimed at building social cohesion and tolerance, and strengthening government institutions (areas 3 and 4).
