Context

Since the beginning of the conflict in Sudan on 15 April 2023, UNHCR has registered an **influx of Sudanese refugees and Chadian returnees from Darfur** at border entry points in eastern Chad.

UNHCR field teams in Ouaddai, Sila and Wadi Fira provinces are working with the Chadian government, CNARR, local authorities, and partners to continue **monitoring the situation at the border, and to receive, protect and respond to the urgent humanitarian needs** of refugees and returnees fleeing the violence.

BASIC NEEDS AND ESSENTIAL SERVICES

What category of items does your family need the most?

COMMUNITY ENGAGEMENT

What type of information would you like to receive from humanitarian workers and authorities?

GENDER BASED VIOLENCE

Are there specific places in the host community where you do not feel safe?

The Project 21 is a regional protection monitoring system, launched in 2020 to address gaps in data collection and analysis on protection in West and Central Africa. The inter-agency project mobilizes partners to collect a set of data using harmonized tools and a common methodology to generate joint analysis of the situation, risks, and protection trends. As of 1 June 2023, 2,083 newly arrived refugees have been interviewed in Chad for the Sudanese emergency. This represents a subset of the collected data.
