157,000

*As of 19 June, UNHCR’s operational data portal is reflecting a lower figure of 5,958,800 refugees from Ukraine Recorded Across Europe, down from 8,255,288. The reason for this drop is due to a comprehensive review of the statistics, resulting in adjustments from the refugee flow figure to the refugee stock figure methodology. Additionally, EU countries began reporting the number of active beneficiaries of temporary protection, deducting canceled or inactive applications, which affected the updated figures per country. Moreover, it was observed that many refugees from Ukraine had moved beyond Europe since February 2022. To account for this, a new category “refugees from Ukraine recorded beyond Europe” was included in the data portal (344,700 persons).

KAKHOVKA DAM BREACH RESPONSE

- Three weeks since the destruction of Kakhovka Dam, Ukrainian authorities reported that water levels continue decreasing, with an estimated 200 houses remaining flooded in Khersonska oblast controlled by Ukraine as of 21 June, according to the Government of Ukraine. The number of people displaced has also increased to nearly 4,000 people in Khersonska and Mykolaivska oblasts. OCHA warned the destruction of the dam is affecting tens of thousands of people who had already lost access to piped water in the south of Ukraine. The reservoir — one of the largest in Europe and a source of drinking water for at least 700,000 people — has reportedly lost 70 per cent of its capacity, according to Ukrainian authorities. Large urban areas in Dnipropetrovska oblast are completely cut off from centralized water, while others have extremely limited access.

- From 9 - 17 June, UNHCR participated in 12 interagency convoys responding to Kakhovka dam, covering affected settlements in Dnipropetrovska and Khersonska oblasts, delivering over 31,000 items such as jerry cans, solar lamps, sleeping bags, mattresses, and tarpaulin. UNHCR is prepositioning 140,000 non-food items (NFIs) across the country to enhance its readiness to quickly respond to urgent and increased humanitarian needs. Additionally, over 7,300 people impacted by the dam have registered for UNHCR cash assistance, based on blanket targeting for all individuals impacted by the flood.

You can find out more about the situation and the response in Ukraine and the region on the dedicated UNHCR Ukraine Emergency website.
UKRAINE SITUATION UPDATE

- Increased airstrikes and other attacks resulted in multiple deaths and injuries. On 13 June, an airstrike hit a residential building and other civilian infrastructure in Dnipropetrovska oblast, killing 11 civilians and injuring multiple others. In Odesa, an overnight strike on 14 June hit a residential building, a university, and shops, resulting in three deaths. Closer to the frontline, attacks damaged dozens of homes in Donetsk region, and gas and electricity systems on both sides of the frontline.

- On 19 June, the UN in Ukraine released its Human Impact Assessment (HIA), providing comprehensive insights into the effects of Russia’s full-scale invasion on living conditions, health, access to education, livelihoods, food security, social inclusion, and gender equality. UN agencies, including UNHCR, contributed to the UNDP-led impact assessment.

UNHCR RESPONSE AND TARGETS INSIDE UKRAINE 2023 AS OF 15 JUNE

- **1.41 million** people reached with assistance in 2023, out of a target of **3.6 million** people, some of whom will receive several forms of support.

- **601,337** people reached with protection services, out of a target of **1.9 million** people.

- **501,809** people supported with essential items, out of a target of **1 million** people.

- **263,344** people supported with cash assistance, out of a target of **800,000** people.

- **108,290** people received shelter/housing support, out of a target of **720,000** people.

- **75,474** people supported with safe access to multi-sectoral services in collective sites, out of a target of **150,000** people.

UNHCR RESPONSE HIGHLIGHTS

- **Border Monitoring:** From 31 May - 19 June, UNHCR partners conducted 185 monitoring visits to the border crossing points with Hungary, Poland, Republic of Moldova, Romania, and Slovakia. During the monitoring visits, 810 people were provided with protection counselling, 128 with legal assistance, and 14 were assisted with social accompaniment.

- **Capacity Building:** On 6 June, UNHCR FO Lviv joined the Interagency Meeting on Current Issues of Documenting Stateless Persons and Persons at Risk of Statelessness during the ongoing martial law in Ukraine, organized by implementing partner NEEKA, to build capacity of relevant actors. The meeting involved discussions by representatives of the State Migration Service, Free Legal Aid Centers, Ombudsperson’s Office, and Civil Registry Offices in Lvivska oblast.

- **Child Protection:** On 14 June, Dolyna’s child protection department launched a child-friendly space supported by UNHCR partner Rokada in Ivano-Frankivska oblast. Many IDP children in Dolyna and nearby communities lack integration opportunities due to online learning modality. The Child Friendly Space (CFS) equipped by Rokada will provide social cohesion activities and child protection services such as case management, awareness sessions, and training for CFS facilitators.

- **World Refugee Day:** UNHCR Ukraine marked the day with an event focused on initiatives promoting access to housing, employment and social programmes for forcibly displaced people. The event brought together over 80 local and international partners and entities, and included a key note address by Ukraine’s Vice Prime Minister Iryna Vereshchuk.

Housing/NFIs:

- **Humanitarian convoys:** Along the frontline, UNHCR contributed to an inter-agency convoy to Avdiivka city in Donetsk oblast on 14 June, bringing food, hygiene supplies, shelter materials, and other basic items for the remaining 1,700 residents.

- **Immediate emergency response:** UNHCR and partner Proliska provided emergency shelter kits, NFIs and psychosocial support to those affected by the missile attack in Dnipropetrovska oblast on 13 June, which damaged at least six apartment buildings in Kryvyi Rih city. Partner R2P responded with legal advice on damaged property and lost documents.

- **NFI assistance:** During the reporting period, partner R2P provided essential items supported to 300 internally displaced people (IDPs) within Chernihivska oblast to safer areas in the region. In joint collaboration with local authorities, UNHCR provided non-food items (NFIs), such as sleeping bags, pillows, blankets and hygiene items to two bomb shelters and a local hospital in Korop town, benefitting up to 600 people.

**UNHCR Ukraine Situation**

In Ukraine, UNHCR leads three Clusters, namely Camp Coordination and Camp Management (CCCM), Protection, and Shelter and Non-Food Items. The CCCM Cluster was activated in March 2022 and coordinates eleven UN and NGO partners across three hubs, with the aim of supporting 400,000 people in collective sites in 2023. The Protection Cluster consists of 136 partners, including sub-clusters (57 partners under General Protection) and operates through five coordination hubs to reach an anticipated 7 million people in 2023. The Shelter and NFI Cluster coordinates 97 active partners across five coordination hubs, targeting 3.3 million people in 2023 with NFI kits, emergency shelter and housing repairs. UNHCR also co-chairs the Protection Strategy Working Group under the Humanitarian Country Team, and the Accountability to Affected Populations Working Group. Through its leadership in these areas, UNHCR promotes the centrality of protection, as well as meaningful engagement and participation across the response.

**Regional Refugee Response**

The 2023 RRP aims at ensuring refugees’ access to protection and assistance on a non-discriminatory basis, with a special focus on refugees at risk of becoming vulnerable. The 2023 plan places an emphasis on refugees’ socio-economic inclusion, in recognition of the challenges faced by refugees due to their prolonged displacement. Support is foreseen to institutions, services and facilities used both by refugees and members of host communities, which will be crucial for promoting solidarity and social cohesion between host and refugee communities. Inter-agency Refugee Coordination Forums (RCFs) led by UNHCR, and specific sectoral groups, will continue working at country level in Belarus, Bulgaria, Estonia, the Czech Republic, Hungary, Latvia, Lithuania, Poland, the Republic of Moldova, Romania, and Slovakia to support the efforts of the concerned governments.
