This infographic presents information on individuals registered through Individual Registration and Receptions in the Population Registration and Management Ecosystem (PRIMES) through June 30, 2023. The data presents demographic and geographic information, the identification of Specific Protection Needs (SPNs), and the assistance provided by UNHCR and its partners to people with and for whom UNHCR works.

Number of registered individuals

54% of the cases registered in PRIMES are women.

Total individuals 913,368

Age ranges

The average age of people registered in PRIMES is 18 - 59 years old.

Age ranges of individual registrations

- 18 - 59: 32%
- 12 - 17: 5%
- 5 - 11: 9%
- 0 - 4: 5%
- 60 +: 2%

Age ranges of focal point receptions

- 18 - 59: 73%
- 60 +: 3%
Evolution of PRIMES registrations

Number of individuals registered annually between 2018 - 2023

- 2018: 1,779
- 2019: 32,904
- 2020: 209,794
- 2021: 340,101
- 2022: 271,789
- 2023: 51,468

Number of individuals registered monthly between April and June 2023

- April: 4,774
- May: 8,933
- June: 10,035

73% of total registrations in PRIMES have been made between 2021 and the second quarter of 2023.

Average group size and country of origin

More than 50% of the registration groups are comprised of 1 to 3 persons.

- More than 5 persons: 7%
- 4 to 6 persons: 9%
- 7 to 10 persons: 16%
- 11 to 20 persons: 19%
- More than 20 persons: 18%

Most people report Venezuela as their country of origin, followed by Colombia.

PRIMES partners and users in 2023

- 24 partners use the PRIMES ecosystem
- 18 regional partners and 6 national partners use the PRIMES ecosystem through 358 active users.

PRIMES users

- Partners users: 27%
- UNHCR users: 73%
Communication categories

- Assistance: 30%
- Registration: 24%
- Protection: 13%
- Health: 9%
- People with and for whom UNHCR works: 6%
- Refugee Status: 5%
- Determination (RSD): 3%
- Documentation: 3%
- Legal orientation: 2%
- Other: 2%
- Education: 2%

30% of the orientations provided are related to information requests about humanitarian assistance, followed by registration requests (24%).

Specific Protection Needs (SPNs)

- Physical and legal protection: 72%
- Children at risk: 8%
- Serious medical condition: 7%
- Single parent or caregiver: 5%
- Woman at risk: 3%
- People with disabilities: 2%
- Gender-based violence: 2%
- Unaccompanied or separated children: 1%

Specific Protection Needs enable the identification of the vulnerabilities that people present and the protection risks they face. In this sense, people may have one or several SPNs, and these may change during a given period.

Main subcategories of SPNs registered in PRIMES

Among the total number of SPNS, 29% are related unmet basic needs, with difficulties in achieving an adequate standard of living, including access to food, clothing, housing, water, sanitation and healthcare. 26% are related to do not have legal documentation, meaning that they either do not possess any documentation or are in an irregular situation; some might be at risk of statelessness.
