OVERVIEW: There are now nearly 5.5 million forcibly displaced due to the outbreak of conflict in Sudan, including 4.2 million internally and over 1 million in neighbouring countries. Sudan was already hosting large refugee populations before being impacted by this new emergency and, like hosting countries, needs additional support to provide protection and critical life-saving assistance, including for those who have been secondarily displaced within the country. Urgent needs include water, food, shelter, health, and core relief items. The current priority activities are the registration of new arrivals, relocation away from border areas, identification of especially vulnerable families and persons with specific needs, and putting mechanisms in place to prevent and respond to gender-based violence and ensure alternative care services for unaccompanied refugee children.

Forcibly Displaced

1,072,205 Newly arrived refugees, asylum seekers and returnees

Self-relocated Refugees in Sudan

4,232,840 IDPs in Sudan

Arrivals by population and estimated gender type

- 5,492,989 Sudanese Refugees - 793.7k
- 52% Female
- 48% Male

- 260.1k Refugees - other nationalities - 18.5k

Refugee Returnees

4,701

An estimated 50% of new arrivals are children. This estimation is based on data from South Sudan, CAR, Ethiopia, and those pre-registered in Chad.

Newly arrived refugees and asylum seekers

812,145

260,060 Newly arrived refugee returnees
