UNHCR Operational Highlights

- Somalia is the country generating the highest number of refugees in the world, after Afghanistan and Iraq.
- Somali people are facing one of the worst humanitarian crises in the world today. One in three Somalis is in urgent need of humanitarian assistance and one in every three children living in the South-Central region is malnourished.
- UNHCR leads humanitarian agencies’ protection and emergency relief interventions targeting almost 1.5 million IDPs, in addition to delivering protection and assistance to over 2,000 refugees in Somalia.
- Most of Somalia is in security level 5 (high), with Mogadishu and other areas of South-Central in level 6 (extreme) translating to limited humanitarian access to vulnerable population of concern.

Mixed Migration

Every year, tens of thousands of people, mainly Ethiopians and Somalis, cross the Gulf of Aden from Somalia, hoping to find a better future in Yemen. Many refugees and asylum seekers die during this journey in search of a better and safer life. UNHCR raises awareness on the dangers and the human rights violations involved in the migration movement, and ensures access to asylum procedures for potential asylum seekers.
