This map illustrates the refugee camp currently under construction in Al Azraq, Jordan and updates the previous UNOSAT analysis done using an image from 21 July 2013. As of 20 August 2013 a total of 2,689 infrastructure and support buildings were detected in the camp and preparations are continuing to accommodate incoming refugees. The previous analysis done by UNOSAT detected total of 1,524 infrastructure and support buildings, an 73% increase of 1,165 in one month. This is a preliminary analysis and has not yet been validated in the field. Please send ground feedback to UNITAR / UNOSAT.

Map Scale for A3: 1:20,000

Satellite Data (1): QuickBird-2
Imagery Date: 20 August 2013
Resolution: 60cm
