1. Steps towards targeted assistance

Tyre FO chairing the meeting briefed partners on the steps undertaken by UNHCR and WFP towards the MI campaign related to targeted assistance indicating rationale, items targeted, preliminary information on the modalities of implementation.

In a nutshell:
- Targeting assistance will start in Mount Lebanon, and South as a pilot project in October 2013
- Targeted items are:
  - Food vouchers/WFP
  - Hygiene kit vouchers
  - Baby kit voucher
- MI campaign takes place at all distribution sites where ACF, SHEILD and PU-AMI are distributing the vouchers;
- Presence of UNHCR & WFP staff has been ensured during the entire distribution period of August;
- MI materials comprising of posters, banners and questions and answers leaflets were prepared and posted;
- Main questions of refugees included:
  1. Why assistance will be targeted?
  2. Who is going to be targeted?
  3. How shall I know whether I will continue to receive assistance?
- The way forward: modalities of implementation of targeted assistance and related MI campaign will be defined by the end of August, beginning September

2. Multi sectorial Assessment Form (guidelines)

Multi sectorial assessment form has been presented to all IPs attending, and participants were guided through the document.

Recommendations:
- For distribution purpose, partners have been advised to use the New Comers Household Assessment Form as it allows identifying NFI needs on household level. For an overall shelter assessment, partners can use the Multi sectoral Assessment Form;
- Partners have been invited to share their comments on the recently updated multi sectoral assessment form for further improvement.

3. Winterization: geographical coverage for South region

- Partners attending the meeting were invited to share their winterization plans as to map the geographical coverage and items to be distributed. Four questions guiding questions were raised to allow for planning:
  - How much funding do you anticipate having for your entire winterization programme?
- What interventions do you propose?
- How many HH will you reach for each intervention?
- Which geographical areas are you planning each intervention?
- What is the estimated cost of each intervention?
