Most Commonly Reported Shelter Type of Syrians in Jordan by Basic Service Unit (BSU)

The information presented cannot be guaranteed as an exhaustive picture of the situation or it is not based on a census of the refugee population. The predominant types displayed here should be interpreted with caution as their interpretation largely depends on an unknown population size as an exhaustive picture of the situation as it is perceived by the refugee community. Thus, map reflects a snapshot at a given time and as perceived by the refugee community. The information presented cannot be guaranteed as an exhaustive picture of the situation or it is not based on a census of the refugee population. The predominant types displayed here should be interpreted with caution as their interpretation largely depends on an unknown population size as an exhaustive picture of the situation as it is perceived by the refugee community. Thus, map reflects a snapshot at a given time and as perceived by the refugee community. The information presented cannot be guaranteed as an exhaustive picture of the situation as it is not based on a census of the refugee population. The predominant types displayed here should be interpreted with caution as their interpretation largely depends on an unknown population size as an exhaustive picture of the situation as it is perceived by the refugee community. Thus, map reflects a snapshot at a given time and as perceived by the refugee community. The information presented cannot be guaranteed as an exhaustive picture of the situation as it is not based on a census of the refugee population. The predominant types displayed here should be interpreted with caution as their interpretation largely depends on an unknown population size as an exhaustive picture of the situation as it is perceived by the refugee community. Thus, map reflects a snapshot at a given time and as perceived by the refugee community. The information presented cannot be guaranteed as an exhaustive picture of the situation as it is not based on a census of the refugee population. The predominant types displayed here should be interpreted with caution as their interpretation largely depends on an unknown population size as an exhaustive picture of the situation as it is perceived by the refugee community. Thus, map reflects a snapshot at a given time and as perceived by the refugee community. The information presented cannot be guaranteed as an exhaustive picture of the situation as it is not based on a census of the refugee population. The predominant types displayed here should be interpreted with caution as their interpretation largely depends on an unknown population size as an exhaustive picture of the situation as it is perceived by the refugee community. Thus, map reflects a snapshot at a given time and as perceived by the refugee community. The information presented cannot be guaranteed as an exhaustive picture of the situation as it is not based on a census of the refugee population. The predominant types displayed here should be interpreted with caution as their interpretation largely depends on an unknown population size as an exhaustive picture of the situation as it is perceived by the refugee community. Thus, map reflects a snapshot at a given time and as perceived by the refugee community. The information presented cannot be guaranteed as an exhaustive picture of the situation as it is not based on a census of the refugee population. The predominant types displayed here should be interpreted with caution as their interpretation largely depends on an unknown population size as an exhaustive picture of the situation as it is perceived by the refugee community. Thus, map reflects a snapshot at a given time and as perceived by the refugee community. The information presented cannot be guaranteed as an exhaustive picture of the situation as it is not based on a census of the refugee population. The predominant types displayed here should be interpreted with caution as their interpretation largely depends on an unknown population size as an exhaustive picture of the situation as it is perceived by the refugee community. Thus, map reflects a snapshot at a given time and as perceived by the refugee community. The information presented cannot be guaranteed as an exhaustive picture of the situation as it is not based on a census of the refugee population. The predominant types displayed here should be interpreted with caution as their interpretation largely depends on an unknown population size as an exhaustive picture of the situation as it is perceived by the refugee community. Thus, map reflects a snapshot at a given time and as perceived by the refugee community. The information presented cannot be guaranteed as an exhaustive picture of the situation as it is not based on a census of the refugee population. The predominant types displayed here should be interpreted with caution as their interpretation largely depends on an unknown population size as an exhaustive picture of the situation as it is perceived by the refugee community. Thus, map reflects a snapshot at a given time and as perceived by the refugee community. The information presented cannot be guaranteed as an exhaustive picture of the situation as it is not based on a census of the refugee population. The predominant types displayed here should be interpreted with caution as their interpretation largely depends on an unknown population size as an exhaustive picture of the situation as it is perceived by the refugee community. Thus, map reflects a snapshot at a given time and as perceived by the refugee community. The information presented cannot be guaranteed as an exhaustive picture of the situation as it is not based on a census of the refugee population. The predominant types displayed here should be interpreted with caution as their interpretation largely depends on an unknown population size as an exhaustive picture of the situation as it is perceived by the refugee community. Thus, map reflects a snapshot at a given time and as perceived by the refugee community. The information presented cannot be guaranteed as an exhaustive picture of the situation as it is not based on a census of the refugee population. The predominant types displayed here should be interpreted with caution as their interpretation largely depends on an unknown population size as an exhaustive picture of the situation as it is perceived by the refugee community. Thus, map reflects a snapshot at a given time and as perceived by the refugee community. The information presented cannot be guaranteed as an exhaustive picture of the situation as it is not based on a census of the refugee population. The predominant types displayed here should be interpreted with caution as their interpretation largely depends on an unknown population size as an exhaustive picture of the situation as it is perceived by the refugee community. Thus, map reflects a snapshot at a given time and as perceived by the refugee community. The information presented cannot be guaranteed as an exhaustive picture of the situation as it is not based on a census of the refugee population. The predominant types displayed here should be interpreted with caution as their interpretation largely depends on an unknown population size as an exhaustive picture of the situation as it is perceived by the refugee community. Thus, map reflects a snapshot at a given time and as perceived by the refugee community. The information presented cannot be guaranteed as an exhaustive picture of the situation as it is not based on a census of the refugee population. The predominant types displayed here should be interpreted with caution as their interpretation largely depends on an unknown population size as an exhaustive picture of the situation as it is perceived by the refugee community. Thus, map reflects a snapshot at a given time and as perceived by the refugee community. The information presented cannot be guaranteed as an exhaustive picture of the situation as it is not based on a census of the refugee population. The predominant types displayed here should be interpreted with caution as their interpretation largely depends on an unknown population size as an exhaustive picture of the situation as it is perceived by the refugee community. Thus, map reflects a snapshot at a given time and as perceived by the refugee community. The information presented cannot be guaranteed as an exhaustive picture of the situation as it is not based on a census of the refugee population. The predominant types displayed here should be interpreted with caution as their interpretation largely depends on an unknown population size as an exhaustive picture of the situation as it is perceived by the refugee community. Thus, map reflects a snapshot at a given time and as perceived by the refugee community. The information presented cannot be guaranteed as an exhaustive picture of the situation as it is not based on a census of the refugee population. The predominant types displayed here should be interpreted with caution as their interpretation largely depends on an unknown population size as an exhaustive picture of the situation as it is perceived by the refugee community. Thus, map reflects a snapshot at a given time and as perceived by the refugee community.
