Situation Overview

Peace talks continued in Kuwait throughout June 2016. The parties used the Eid holiday to return home for consultations and prepare for a new round of talks, which is scheduled to start in Kuwait on 15 July.

Despite the ongoing ceasefire, fighting continues. In late June, airstrikes were reported in Sana'a, Abyan, Shabwah, and Lahj. Main entrances leading to Taizz governorate remain blocked, preventing aid from entering the Taizz enclave in particular Salah, Mudhaffar, and Al Qahira districts.

The [9th Task Force on Population Movement \(TFPM\) Report](#) was released on 31 May 2016. This report indicates an IDP population of over 2.8 million individuals, with a further 750,000 individuals identified as IDP returnees who were previously displaced due to conflict. The north western region of Yemen (Amanat Al Asimah, Hajjah, Sa'adah, Sana'a, and Taizz governorates) remains the area with the largest IDP population.
