Site profiles - Greece

This document provides detailed information on sites in Greece to allow for better planning and to address gaps where highlighted. The data will be updated on a monthly basis. All sites are managed by the Greek authorities. Data has been collected from different sources, i.e. UNHCR, site managers, Hellenic Police etc., and indicators are measured and based on the Sphere standards as outlined at the end of the document. Data was collected using key informants at the site and direct observation. Population figures are based on official estimates at site level.
