Methodology: The data presented in this report has been collected by DTM staff deployed in the locations listed and cross-checked with the partners present on the ground.

The depiction and use of boundaries, geographic names, and related data shown on maps and included in this report are not warranted to be error free or do they imply judgment on the legal status of any territory, or any endorsement or acceptance of such boundaries by IOM.
Type of Movement:

- Organized: Planned movements from one location to another, usually with assistance from various actors on ground, such as government, the military, and other humanitarian actors.

- Spontaneous: Unplanned movement usually as a result of sudden triggers, such as attacks, conflicts and other situations that pose threat.

Triggers:

- Voluntary relocation: Voluntary movement of persons from one location to another.

- Involuntary relocation: Involuntary movement of persons from one location to another, usually due to intervention by other actors, for example, the closure of a camp in a location, requiring IDPs in the location to move to other locations, security reasons, and other prompts.

- Conflicts/Attacks: Population movement triggered by security threats in a location.

- Poor living condition: Population movement as a result of difficult circumstances and poor access to basic needs, such as, shelter, food, water, livelihood and other needs.

- Military operations: Population movements as a result of the arrival of the military to a location requiring civilians to move to other locations, to avoid being caught in between conflict situation that might ensue.

- Improved security: Population movement as a result of reduced threat or danger in a location.

Urgent Needs: Areas where an affected population require humanitarian assistance to alleviate suffering and improve the chance of survival.

Available Services: Humanitarian assistance provided to the affected population in a location to alleviate suffering and improve the chance of survival.
