Update on Conflict Sensitivity
Social Stability Sector
Conflict sensitivity is defined as:
- (a) The ability of an organization to understand the context in which it operates,
- (b) Understand the interaction between the context and its intervention;
- and (c) Act on this understanding in order to minimize negative impacts and maximize positive impacts on conflict.
Top needs: best practices documentation, and conflict sensitivity programming
Training and Change Stories

- Conflict sensitivity trainings (Forum ZFD):
  - 4 field trainings
  - 1 training in Beirut
  - Tailored coaching available for interested organizations.

- Change stories:
  - To document partners impact on social stability, from all type of programmes.
  - To be done through interviews with partners
