UNHCR Hotels in islands ⁴	Units	Current places	Current population
Lesvos	6	187	184
Chios	4	117	124

¹UNHCR and Operational Partners.

²Actual capacity is calculated as the subtraction of current places minus 15% which is this week's estimated average natural loss for mainland and 5% for islands. Natural loss is the number of places that cannot currently be used because of damages/repairs, protection issues, family size, etc. The formula applies to all type of accommodation. Actual capacity is a close estimate of available places to be used as reference.

³Occupancy rate is calculated as the percentage of current population over actual capacity.

⁴The additional 304 places provided by UNHCR in hotels in the islands have been set up as an interim winterization solution.

The actual available capacity is estimated to be at 770. This derives from 129 places on islands and 641 places on mainland. It can be used for immediate planning.

Agia Eleni facility is included in the UNHCR Buildings section. There are also 39 available places in Agia Eleni facility.
