| Sectorial updates       | • Shelter colleagues continued focusing responding to the emergency in Nguenyyiel  
• It was reported that it has been manage to open additional pocket in Nguenyyiel. 3000 shelters have already been constructed to respond to the emergency however the initial plan is to have 4000 shelters which the team will continue working for that.  
• Shelter team is working continuously to decongest the class rooms, all schools to free by next week. However biggest challenge we are currently facing is the access to the road which is damaged due to the rainy season.  
• Colleagues from the regional office suggested if there is a way where refugees don’t have to cook in their tents as it will cause health problems.  
• UNHCR Shelter officer responded that the matter will be discussed with partners for solutions and way forwards.  
• UNHCR WASH Officer reported that they are working closely with OXFAM, IRC and ANE to make sure the need of the ware is addressed to the refugees. On this regards it has been agreed on IRC to increase the water by 45,000 ltr, ANE to bring additional 7 tracks, in which 4 tracks are already functioning and OXFAM to scale up the water points.  
• It was noticed that there is a lack of drinking water point at the registration center in Pamdong.  
• WASH colleagues to follow up on the drinking water at the registration.  
• In Pamdong MSF Holland is currently providing clinical support | All partners to continue sensitizing refugee families for Assosa Gur-Shombolla  
All schools to free by next week  
Shelter team to have discussion among them self to find way for refugees to out of their tents.  
WASH colleagues to follow up on the drinking water at the registration. | Shelter Teams

|                 | • ARRA and Carter center provided treatment to the pounds in Pamdong.  
|                 | • UNHCR Snr. Protection Officer reported that it is important that the L2 registration to continue even during food distribution.  
|                 | • It was reported that distribution of dignity kits is on going in Ngueyyiel refugee camp  
|                 | • Education reported that 13,000 and more need to be enrolled in the coming education year. Additionally in the past year out of the 2264 students who sate for the grade 8 National Exam, 1984 qualified for the Grade 9 academic year.  
|                 | • Refugees have been selected to participate in the Advocacy workshop in Geneva.  
|                 | • We need to have a strict L2 registration as the number of recycling children are increasing. Thus it may cause duplication of vaccinations.  
|                 | • LWF Reported that 400 adults have registered for education  
|                 | • MSF Spain reported that they are supporting the Gambella Hospital they also mentioned their interest in how best they can extend their support for camp cases as currently they are receiving 5% case only.  
|                 | • MSF Holland reported that it is very difficult to referral a patient to Gambella Hospital because ARRA requires the proof of registration and the ration card, whereas the refugees most of the refugees have lost their proof of registration.  
|                 | • WFP reported that 13,500 refugees have received food for the month of September 2017. However 17,500 refugees are yet to receive their food. The general food distribution for Nguenyyiel will start as soon as the distribution for the 17,500 refugees is finalized.  
|                 | • It was also reported that the general food distribution will scale up to 13.5KG starting from October 2107.  
|                 | • IOM asked if Pamdong is going to continue as the reception center or we are looking for other options as currently we are not settled in Pamdong. And on top of that she added if the warehouse constructed | Registration to continue even during food distribution.  
|                 | | Food distribution to scale up to 13.5kg per person.  
|                 | | WFP  

Registration and protection.
