Data collected through¹:

Mungula I/II has consistently hosted South Sudanese refugees since it was first established in 1996. As a result, there are close linkages between settlement residents and the neighbouring host community. While implementing and operational partners initially provided critical support during the South Sudanese refugee emergency, a strategy for empowering local organizations to carry on activities in the medium and long-term response is essential.

Gaps & Challenges

There are long waiting lines for patients, few medical staff, and limited hours of service in the health centres that serve the settlement. Many in Mungula I cannot easily access the supplementary feeding program based at one of the health centres because it is located far away from some parts of the settlements. Some refugees also face language barriers when seeking treatment due to a lack of translators.

Access to quality education is limited. The settlement's two primary schools do not have classrooms and overcrowding impedes students from learning. Tuition fees, which many refugee families cannot afford, challenges access to secondary school for youth. An additional early childhood development (ECD) center is needed for young children.

Households lack essential non-food items such as mosquito nets, sanitary pads, and soap. Items that were originally distributed NFI upon refugees' arrival have been worn out and depleted. Many refugees that have limited livelihoods opportunities cannot afford to purchase replacements.

Refugees cannot cultivate enough food to supplement their food rations due to small plot sizes and poor soil quality. This limitation exacerbates the toll of food rations reductions, particularly for the elderly and children.

Though implementing and operational partners are providing livelihoods support, opportunities for income generation are not widely available. Many refugees have not received livestock or seeds and community-initiated village savings and loan associations (VSLA) lack funding. Vocational programs that recruit refugees from Mungula are often held far from the settlement, limiting accessibility.

Persons with specific needs (PSNs) cannot maintain their grass-thatch semi-permanent shelters because of both physical disabilities and the cost of purchasing grass from landowners in the host community. Specifically, PSNs require shelter construction and maintenance assistance from partners.

There is a need for a wellness center, where refugees can safely meet to discuss issues and participate in recreational activities. Refugees with specific protection needs would benefit from an additional protection house.

Strengths & Opportunities

Refugees with specific protection needs are placed in the protection house on a temporary basis until a durable solution is found. Currently, there are two protection houses in Adjumani, located in Mungula and Dzaipi.

There is great potential for promoting more local integration for refugees who originally arrived in the mid-1990s. These refugees are relatively self-reliant and well versed in their rights as refugees, and interact and collaborate closely with Ugandan nationals.

Refugee communities and partners coordinate closely across all sectors. For example, child protection committees, water source committees, and a gender task force bring community members and aid workers together to assess needs and address problems.

Partner organizations

AAH, AFOD, AMREF, Caritas, DRC, IRC, MTI, SCI, SE, UNHCR, UNICEF, URCS, WCC, WFP. WIU

^{1.} Indicator standards to measure gaps were determined by global humanitarian standards, Ugandan national standards, or sector experts for each settlement. Data was collected from implementing partners from the 13th November to the 19th December 2017.

Uganda Refugee Response Monitoring

Settlement Fact Sheet: Mungula I/II | December 2017

Protection

0 new arrivals reported in the past three months

13 partners:

certificates

AMREF, Caritas, DRC, IRC, MTI, SCI, OPM, SCI, UNFPA, UNHCR, UNICEF, URCS, WCC

38 live births reported in the past three months received birth notification cards, but not official birth

No birth certificates

Sexual and gender-based violence (SGBV)

SGBV cases reported in the past three months, which may indicate a gap in reporting

18 community-based committees or groups working on SGBV prevention and response, meeting the need

No

additional groups needed

Child protection

No additional reproductive-age women in need of dignity kits or sanitary pads

1.628 reproductive-age women provided with dignity kits or sanitary pads

People with specific needs (PSNs)³

109 disabled PSNs have received services for their specific needs

174 elderly PSNs have received services for their specific needs

960

adolescents not reached through targeted trainings or programming

227 adolescents reached through targeted trainings or programming

child friendly space 1 additional child friendly space needed

2 partners: AAH, DRC

Water, sanitation and hygiene

28.1 litres of water per person per day provided, meeting settlement needs

of water needs met through water trucking

motorized boreholes operational or planned

Nο additional boreholes

needed

609 household latrines completed 713 additional household latrines needed

active hygiene promoters additional hygiene promoters needed

Education

schools attended by refugees

1,970 refugees are attending school in or around the settlement, with gross enrolment rates:

758 refugees aged 3-5 457 refugees enroled

Pre-primary

data on refugees aged 6-13 not

1,326 refugees enroled 3 partners: SCI, UNICEF, WIU

Gross enrolment rates data on refugees

aged 14-17 not available

Primary

187 refugees enroled

available

Secondary

classrooms **12**

permanent

classrooms constructed additional classrooms needed

teachers are working in schools refugees attend, but more are needed to reach teacher-student ratio standards:

85% additional teachers needed for number of students enroled teachers 15%

additional teachers needed for number of students enroled 46 teachers

teachers, meeting the need for number of students enroled

3. UNHCR conducted a joint PSN assessment with OPM and partners and the report will be released in February 2018
