

SOUTH SUDAN Regional Refugee Response Plan

January - December 2018

REVISED IN JULY 2018

AT A GLANCE

OVERVIEW

The 2018 South Sudan Regional RRP articulates the protection and humanitarian needs of an anticipated 2,677,400 South Sudanese refugees by the end of 2018. The RRP outlines the inter-agency response strategy and financial requirements of 70 partners responding across six countries of asylum. As the South Sudanese refugee crisis enters its fifth year in 2018, it remains the largest refugee situation on the African continent. The rate of the refugee movement has accelerated as the conflict has drawn on; over two thirds of the post-December 2013 refugee population have sought asylum in 2016 and 2017. This has created a challenging situation for asylum countries and humanitarian partners who are addressing the needs of refugees who fled before and after the outbreak of conflict in 2013, as well as responding to a constant and steady flow of new arrivals fleeing an evolving and volatile situation. As such, the main focus of the response will be to provide protection and life-saving assistance, as well as opportunities for self-reliance for South Sudanese refugees.

¹ The pre-December 2013 population was determined by UNHCR and partners in 2014 for the purpose of the Humanitarian Needs Overview (HNO) process. The figure is based on data from the 5th Sudan Population and Housing Census of 2008, which was adjusted in 2014 to take into account the South Sudanese repatriation exercise of 2010, and further cross referenced with pension records.

2018 STRATEGIC OBJECTIVES

Country level objectives and activities in Central African Republic, the Democratic Republic of the Congo, Ethiopia, Kenya, Sudan and Uganda support the following overarching regional objectives:

1. Uphold the quality of asylum for South Sudanese refugees in the region, the majority of whom are women and children, by **meeting their lifesaving needs and upholding their dignity** according to applicable minimum standards.
2. **Anchor the response within national and regional multi-year protection frameworks, policies, laws, and standards** which comprehensively address legal and physical protection needs of South Sudanese refugees with a particular emphasis on children, women and youth.
3. **Enhance biometric registration, documentation and data management** in collaboration with host Governments to support implementation of durable solutions strategies.
4. Proactively explore and, where applicable, **pursue innovative approaches** stemming from participatory assessments with refugees, Governments, humanitarian and development actors, private sector, and civil society, with a view to systematically expand Cash-Based Interventions and other initiatives aimed at **alleviating the dependency of refugees on aid**.
5. Maintain the **civilian and humanitarian character** of camps.
6. Promote **social cohesion** between refugees and host communities through implementation of **targeted resilience programmes**.

REGIONAL COORDINATION

The 2018 South Sudan Regional RRP brings together 70 partners across the six countries of asylum. The United Nations High Commissioner for Refugees appointed Arnauld Akodjenou as the Regional Refugee Coordinator (RRC) for the South Sudan situation to work with UNHCR Representatives in CAR, the DRC, Ethiopia, Kenya, Sudan and Uganda to ensure an overarching vision and coherent inter-agency engagement across the region. In so doing the RRC works at the regional level to facilitate strategic, planning, and operational synergies and collaboration with Governmental, UN system, Non-Governmental Organizations, donors, civil society partners, private sector, and other stakeholders. At the country level, the Refugee Coordination Model remains the main tool to coordinate the refugee response.

The complete list of the 70 partners involved in the 2018 South Sudan Regional RRP is provided on the following page.
