ACTED supports 24 spontaneous settlements in Nugaal Region through provision of Camp Management Services, including coordination and information management, community participation, site maintenance and communication with communities activities. On a monthly basis ACTED conducts service delivery monitoring data collection through site observations and key informant interviews. Data are circulated with partners and summarized in an interactive dashboard and sites snapshot.

For more information please contact ACTED CCCM Senior Officer Ali Askar at garowe.cccmseniorofficer@acted.org.

### Number of individuals per Water Point

In Garowe sites the residents do not drink water from the water point because of water bad quality. Community self organizes water tracking to get drinkable water.

In Burtinle sites there are 4 water points: 1 in Kalkaal 1 and 3 in Kalkaal 2. Water is drinkable. In Ladan there are no water points so the Community self organizes water tracking.

### Number of Individuals per Latrines

- **Garowe 1**: 85
- **Garowe 2**: 35
- **Garowe 3**: 13
- **Burtinle**: 73
