SECURITY DEVELOPMENTS

The year 2018 looked to be distinctly promising in the fight against Boko Haram around the Lake Chad Basin (LCB) countries Cameroon, Chad, Niger and Nigeria. Poignantly, incidents in recent months witnessed an upsurge in deadly attacks by insurgents on both military and civilian targets, despite claims by Nigeria and its allies that Boko Haram is on the verge of defeat.

Reported incursions on 19 November in Metele village of Guzamala Local Government Area (LGA) in Borno State, Nigeria, suggest insurgents overran the 157 Task Force Battalion killing many soldiers. Conflicting reports put the number of casualties between 40 and 100 killed. The upsurge in the attacks has had head of states making up the Multinational Joint Task Force (MNJTF) meet in N’Djamena on 28 November to discuss ways of curbing the persistent threat. The nine-year extremist rebellion has claimed more than 20,000 lives and forced more than 2 million to flee their homes internally and some 230,000 Nigerians across borders. This situation has since sparked a dire humanitarian crisis inside Nigeria, Cameroon, Chad and Niger. The MNJTF comprising Benin, Cameroon, Chad, Niger and Nigeria, was set up in 2015 to fight and dislodge the Islamists in the LCB region.

A decrease in the attacks was noted in Cameroon during November. The Cameroonian forces mounted military interventions and made several arrests of suspected insurgents during the month. Despite these strides, two causalities and at least 29 injured were reported following a 28 November detonation of an explosive by a female bomber in Amchide, a village along the Cameroon-Nigeria border and 2.6 km from Banki, Borno state of Nigeria. Another female bomber was reportedly killed before her explosives were detonated. Mostly women are target recruits for suicide missions due to their vulnerabilities.

The security situation remained relatively calm in Chad. The threat of insurgency however remains high. On 9 November, 31 fishermen suspected to be Boko Haram operatives were arrested by the defence and security forces (FDS) and immediately transferred to Bol Detention Centre, 152 km north of N’Djamena. Their arrest took place in Litri village, N’gouboua, a village in the Lac region, on the north-eastern shore of Lake Chad.

Niger endured multiple Boko Haram attacks against Forces de Défense et de Sécurité (FDS) near the Niger-Nigeria border. Incursions also targeted civilians. On 22 November, 8 FORACO mineral drillers were reportedly killed by armed assailants with Boko Haram ties in Toundou, located 70 km Southeast of Diffa. Another six were wounded, including a Nigerian refugee. The attackers made off with two company vehicles.

At least 19 girls were abducted by alleged Boko Haram extremists in Diffa on 24 November. Nine were abducted from the Boulahardé village, seven from Bagué village and the remaining three from Bagi Majari village. On 25 November, two girls abducted in Bagué managed to escape.
OPERATIONAL HIGHLIGHTS

In 2018, prospects for facilitated returns of Nigerian refugees in Cameroon, Chad and Niger and IDPs in Nigeria were dashed by the ongoing attacks by Boko Haram. The slow rebuilding of the ebbed social service facilities and local economies in north-east Nigeria have also prevented the return of the displaced Nigerians within and from across borders. In March 2017, Nigeria, Cameroon and UNHCR signed a Tripartite Agreement in Yaoundé to facilitate returns. The Yaoundé Agreement, as well as the September 2018 Borno State Return Strategy which set minimum conditions, meant to ensure principled returns and prevent the refoulement of refugees in asylum countries and forced returns of IDPs within Nigeria.

Cameroon, Chad and Niger share 231,504 Nigerian refugees while Nigeria struggles to support more than 2 million internally displaced persons (IDPs). Nigeria is also home to the more than 30,000 Cameroonian refugees. Cameroon hosts 267,813 refugees from Central Africa Republic (CAR) and 101,404 from Nigeria. Chad, apart from sheltering 337,715 Sudanese refugees, also hosts 11,319 Nigerians and 101,178 refugees from CAR. The world’s poorest nation, Niger, is dealing with a mixed situation of displaced and refugee populations. It hosts 118,781 Nigerians, 57,300 refugees from Mali and 156,136 IDPs in Diffa, Tillaberi and Tahoua Regions.

The social-service facilities in the three countries continue to be under-funded because of the ongoing fight against Boko Haram, making humanitarian aid alone insufficient to address some of the essential needs. With the generous funding by our traditional donors, in 2018, UNHCR sought financial needs totalling USD 163.5 Million of which only USD 53.65 Million has been funded by this November.

The four countries are, meanwhile, embroiled in the fight against Boko Haram for nearly ten years now, spending more resources to defeat the extremists, a persistent security threat in the Lake Chad Basin region. LCB countries reportedly spend between USD 250 Million to USD 2 Billion to raise and maintain the fighting forces to defeat Boko Haram. The conflict disadvantages the already struggling economies as it also slows the rebuilding of the much-needed social service facilities destroyed by Boko Haram.
UPDATE ON ACHIEVEMENTS

NORTH-EAST NIGERIA (Origin of Nigerian refugees living in Cameroon, Chad and Niger)

- In Maiha LGA, Adamawa State, UNHCR apportioned over 60 units of two-bedroom permanent shelters, complemented with standard NFI kits, to the most vulnerable returnees.
- 285 children recruited by / associated with the Civilian Joint Task Force (CJTF), a vigilante organisation, have been reintegrated into civilian life, following verification by UNHCR, UNICEF, IOM and UNDP.
- Since the beginning of 2018, some 40,393 returning Nigerian refugees from Cameroon, Chad and Niger have been registered at border control points in north-east Nigeria. This has been possible through partnerships with the Nigerian Immigration Service (NIS), State Emergency Management Agency (SEMA) and National Emergency Management Agency (NEMA).
- Bama and Gwoza LGAs of Borno State held a training on concept, types, causes and risks associated with Sexual and Gender-Based Violence (SGBV) and Sexual Exploitation and Abuse (SEA). Training also provided lessons on response through the use of Psychological First Aid (PFA). Participants included 70 security personnel from the military, immigration, Civilian Joint Task Force (CJTF), Hunters Association and the Nigeria Security and Civil Defence Corps, 180 Bulamas (ward leaders), 80 peer group leaders and 62 Protection Action Group. The training was possible through UNHCR’s collaboration with security personnel and community representatives who developed strategies for SGBV prevention in IDP camps and host communities in targeted Bama and Gowza.

CAMEROON

- A biometric registration exercise in Logone-et-Chari Department, in the Extreme-Nord Province, has registered 14,539 out-of-camp Nigerian refugees as of 30 November. The exercise, which began on 3 November, aims to protect and document 38,715 out-of-camp Nigerian refugees.
- A workshop to reinforce capacity building of the Albert Einstein German Academic Refugee Initiative (DAFI) Scholarship focal points was held in Bertoua from 6 – 7 November. The Standard Operating Procedures (SOPs) were revised and scholarships reviewed. The number of awarded scholarships increased from 2 to 8, bringing the total number to 26 recipients from 18 for the 2018-2019 Academic School Year. The DAFI programme enables young refugees to unlock their potential by addressing key barriers to higher education.

CHAD

- In Dar es Salaam camp, 18 refugees will receive training to acquire the necessary knowledge and skills for constructing refugee housing units. As of 30 November, 17 shelters were installed and systematically allocated to beneficiary households.
- As proof of the impact, refugee, IDP and returnee beneficiaries provided testimonials on the Direction des Affaires Politique et de l'Etat Civil (DAPEC) and UNHCR’s activities that prevented statelessness through the registration of children in civil status during the 4th anniversary of the #iBelong / #Jappartiens global campaign was celebrated in the Lac Province on 10 November. The ceremony raised awareness on the importance of documentation and the risks of statelessness, presented Government actions to combat statelessness, showcased the support from partners and relayed the challenges they encountered.
- Of the 31 fishermen arrested for being suspected Boko Haram operatives in Litri Village on 9 November, 4 were identified as persons of concern (PoC) following a UNHCR and Commission Nationale d’Accueil et de Réinsertion des Refugies et des Rapatriés (CNARR) joint mission to Bol Detention Centre on 16 November.
The other detainees, mainly Nigerians, permanently or occasionally move between Cameroon, Chad and Niger for economic activities.

NIGER

- UNHCR Niger received 98 pairs of crutches, 5 wheelchairs, 4 tricycles and 100 canes, for persons with disabilities and limited functionalities during the month.

- Two refugee focus groups highlighted their water, food, shelter and NFI needs and discussed difficulties in access to assistance, the lack of work opportunities and documentation that limits their movements during UNHCR and the Danish Refugee Council’s (DRC) joint monitoring mission to Kodo Kindilla IDP Site in N’Guigmi, around 130 km north-east of Diffa.

- The EU Trust Fund Urbanization Project that assists the displaced with shelter is underway in Chétimari, N’Guigmi and Diffa, in collaboration with implementing partner Comitato Internazionale per lo Sviluppo dei Popoli (CISP). In Chétimari, several kilometres north of the Nigerian border, the 96 shelter constructions began in 2018 and are at different stages; foundations, wall elevations and roofing. In N’Guigmi, some 130 kilometres north-east of Diffa, 222 constructions began and also at different stages; foundations, wall elevations and roofing. In Diffa, 431 constructions began, of which 53 are finished and habitable, 119 are the roofing stage and 259 are at the foundational stage.
Financial Information

In total, for refugee response in Cameroon, Chad and Niger, as well as response for IDPs in Nigeria, UNHCR’s requirements amount to USD 163.5 million in 2018. UNHCR is very grateful for the financial support provided by donors, particularly those who have contributed to UNHCR activities with unearmarked and broadly earmarked funds, as well as for those who have contributed to the Nigeria Situation as a whole.
