

**Total number of convoys (since 14 Apr 2018)** **3**

The map illustrates the distribution of UNHCR offices, refugee camps, and returnee locations across the four states of Darfur: North Darfur, West Darfur, Central Darfur, and South Darfur. The map also shows the borders of Sudan with Chad, Egypt, Libya, and Ethiopia, as well as the Red Sea. The map includes a legend for the symbols used: UNHCR office (blue building icon), Refugee camp (red tent icon), Reception centre (black house icon), Returnee location (black dot icon), Population movement (blue arrow icon), State boundary (dashed line), and Locality boundary (dotted line). The map shows a high concentration of refugee camps in the western part of Sudan, particularly in West Darfur and Central Darfur, and a high concentration of returnee locations in the eastern part of Sudan, particularly in North Darfur and East Darfur. Blue arrows indicate population movement from refugee camps towards returnee locations. The map also shows the locations of UNHCR offices and reception centres. The map includes an inset map of Africa showing Sudan's location.
