The sector aims to ensure that all populations of concern receive appropriate and timely shelter and NFI support in line with the minimum agreed standards for Uganda. Direct labour and technical support to the construction of emergency and semi-permanent shelters for persons with specific needs remains a priority, although the modalities include market and community-based approaches for a wider and more sustainable reach. Ongoing repairs and maintenance works to communal shelters at operational transit facilities are continuing as needed.

A key objective of the sector is the implementation of a revised shelter strategy that takes into account more environmentally-sustainable, culturally-sensitive and flexible design and implementation modalities. In addition, the establishment of settlement planning guidelines will improve site planning and contribute to land use optimization. The phased rollout of a household address system for refugees will enable the integration of settlement cadastral plans with local government plans.

### Key indicators

- **Newly arrived refugee households receiving NFI**
  - Target: 38,332 HH
  - Actual: 13,910 HH
  - 36% of target achieved

- **Refugee households provided with emergency shelter kits upon plot allocation**
  - Target: 38,332 HH
  - Actual: 5,336 HH
  - 14% of target achieved

- **Refugee PSN households assisted with semi-permanent shelters**
  - Target: 21,247 HH
  - Actual: 363 HH
  - 2% of target achieved

### Objective: Ensure the minimum non-food items (NFI) standards for all refugees are met

**Newly arrived refugee households receiving NFI**
- Congolese and other refugees: 5,839 HH, 26,666 HH, 22%
- South Sudanese refugees: 8,071 HH, 10,000 HH, 81%

### Objective: Access to improved and sustainable shelters for refugee households is increased

**Refugee households provided with emergency shelter kits upon plot allocation**
- Congolese and other refugees: 3,257 HH, 26,666 HH, 12%
- South Sudanese refugees: 2,397 HH, 10,000 HH, 24%

**Refugee PSN households assisted with semi-permanent shelters**
- South Sudanese refugees: 363 HH, 13,988 HH, 3%

### Communal accommodation shelters in transit sites

- Newly constructed: 23 HH
- Repaired: 19 HH
