Refugee Access to Livelihoods and Housing, Land, and Property

May 2019
UGANDA

CONTEXT
Uganda is currently hosting the largest number of refugees in the region with over 1.2 million refugees and asylum seekers, primarily from South Sudan, the Democratic Republic of Congo (DRC), and Burundi. Recently arrived refugees have joined Rwandese, Somali, and other refugees that have lived in Uganda for decades. Due to the large number of refugees, the range of countries of origin, and the varying lengths of displacement, there are key information gaps on how access to or lack of housing, land, and property (HLP) for refugees impact their potential for sustainable livelihoods.

In partnership with Norwegian Refugee Council (NRC), REACH conducted an assessment from 3 December 2018 to 15 March 2019 to collect baseline data on refugees’ access to livelihoods and HLP. The assessment aims to provide a better understanding of the conditions of refugee access to livelihoods and HLP, the linkages, and other factors influencing sustainable livelihoods and potential movement within Uganda.

METHODOLOGY
A mixed methods approach was used, driven by a household-level structured survey, semi-structured key informant interviews (KIIs) and focus group discussions (FGDs). The quantitative household-level survey produced results representative for the refugee population in 30 refugee settlements (considered as 25 due to five combined settlements in Adjumani) across 11 districts, as well as select divisions of Kampala (Makindye, Kampala Central, and Kawempe) with a 95% confidence level and 10% margin of error at the settlement level for all questions asked to the entire sample size. A total of 3,165 households were interviewed for this assessment. All questions referring to a subset are footnoted.

KIIs and FGDs were used to triangulate the data and provide context to quantitative findings. KIIs targeted settlement leadership, including Office of the Prime Minister (OPM) commandants and UNHCR staff, refugee welfare committee leaders, district local government officials, and key partners working in relevant sectors. Semi-structured FGDs were stratified by gender and conducted with refugee and host community groups in each location.

Findings in this factsheet are representative of refugee households living in Olua I & II refugee settlement. A total of 114 refugee households were interviewed in Olua I & II.

POPULATION PROFILE OF REFUGEES IN UGANDA

Female-headed households (HHs): 67%
Average household size: 7

Displacement demographic
Top countries of origin:
1. South Sudan (65%)
2. DRC (27%)
3. Burundi (3%)
4. Somalia (2%)

BRIEF OVERVIEW OF O LUA I & II IN ADJUMANI DISTRICT
Originally closed in 2006 after many South Sudanese refugees returned home, Olua I/II were reopened in 2012 to host another influx of South Sudanese refugees fleeing inter-communal violence.

HHs WITH VULNERABLE MEMBERS

- Unaccompanied/separated child, orphan: 63%
- Disabled members: 75%
- Pregnant / lactating women: 40%
- Female-headed HHs: 88%

HHs reporting member with persons with specific needs (PSN) card: 56%

HHs reporting that some members are not registered as refugees: 8%

TOP 3 HLP CHALLENGES

- Property: 38%
- Housing: 31%
- Land accessed for housing: 29%

---

1. Figures based on United Nations High Commissioner for Refugees (UNHCR) and Office of the Prime Minister (OPM) population figures updated as of April 2019.
2. This question was only asked to the 79% of respondents facing HLP challenges. The level of confidence may thus be lower than 95%.
3. Respondents could answer more than one option for this question.
HHs perceiving themselves at risk of eviction: 100%

TENURE ARRANGEMENTS
% of HHs by shelter tenure:
- 84% Owned by the head of the household
- 8% Owned jointly between household members
- 6% Owned by the spouse
- 1% Owned by other family members (rent free)
- 1% Rented

0% of HHs have documentation proving ownership or legal occupancy of shelter.

% of HHs by methods of shelter acquisition:
- Construct: 99%
- Acquire: 1%

Of the 99% of HHs that reported constructing their shelter, most commonly reported ways of acquiring materials:
- Nature: 86%
- Purchased: 67%
- Friend: 10%

SHELTER CHALLENGES
86% of HHs reported shelter damage. Of those, the most commonly reported parts of the shelter damaged are:
- Damage to roof: 94%
- Damage to windows and/or doors: 16%
- Damage to wall material: 6%

37% of HHs reported not being able to conduct repairs. Of those, the most commonly reported reasons include:
- No money for repair: 83%
- Material not available: 50%
- Waiting for landlord to repair shelter: 3%

% of HHs reporting members do not feel safe in their current shelter:
- Female: 31%
- Male: 26%

ACCESS TO LAND
% of HH reporting:
- Accessing land where shelter is located: 98%
- Accessing land in a separate plot: 9%
- No access to any land: 2%

Method of accessing land around shelter plot:
- 96% OPM/UNHCR allocation
- 3% Accessing someone else’s land for free
- 1% Renting to access someone else’s land

9% of HHs reported accessing land outside their shelter. Of those, the most commonly reported methods of accessing that land are:
- OPM/UNHCR allocation: 80%
- Renting to access someone else’s land: 10%
- Accessing someone else’s land for free: 10%

USE OF LAND FOR CULTIVATION
86% of HHs reported using their shelter plot for cultivation. Of those, the following reported on sufficiency of the land to provide food for the HH in the most recent harvest:
- 94% Insufficient
- 6% Sufficient

FORMAL AGREEMENTS
Of the 5% that access land around shelter plot through renting, free access, or ownership, 0% of HHs that have a formal agreement to access the land

Of the 20% of land accessed outside of shelter plot through renting, free access, or ownership, 0% are accessed through formal agreement

---

4 The Government of Uganda allocates land for residential and agricultural purposes, to refugees, irrespective of ethnicity and origin. This is done via OPM with the support of UNHCR.
HLP Challenges

79% of HHs reported facing HLP challenges. Of those:

Most commonly reported areas of HLP issues (% of HLP issues):[^3]

| Property | 38% |
| Housing  | 31% |
| Land accessed for housing | 29% |

Most commonly reported types of HLP issues (% of HLP issues):[^3]

| Plot given was unusable | 47% |
| Theft                | 28% |
| Destruction          | 23% |

HLP ISSUE RESOLUTION

51% of the 116 HLP issues reported were attempted to be resolved by the household.

Out of the HLP issues that HHs attempted to resolve, the following mechanisms were used:[^3]

- Refugee Welfare Committee: 51%
- Help desk: 43%
- Family: 16%

33% of the HLP issues reported were resolved.

PROPERTY

18% of HHs reported having no property at all. Out of the 82% who do:

HHs with income-generating property: 31%

Most commonly reported type of property:

| Livestock | 65% |
| Solar panel | 38% |
| Physical structure for shop/small business | 4% |

Most commonly reported sources and types of information HHs access:[^3]

| Source | 80% |
| Refugee Welfare Committee |
| Family and friends | 47% |
| NGO | 37% |

| Type of information | 94% |
| Food distribution |
| Registration | 84% |
| Availability of services | 68% |

97% of HHs reported trusting the information they receive.

Most commonly reported information needs of HHs by area:[^3]

- Availability of services: 61%
- Food distribution: 54%
- Registration: 32%

ACCESS TO INFORMATION
HHs reporting perceived livelihoods challenges:

LIVELIHOODS SOURCES
Out of the 100% of HHs who reported having a source of income, the most commonly reported sources are:

- Cash assistance: 68%
- Remittances: 23%
- Selling assistance: 18%

Most commonly reported livelihood groups HH members participate in:

- Village Savings and Loan Associations: 42%
- Farmers' group: 38%
- Livestock association: 5%

Most commonly reported livelihoods challenges:

- Lack of credit to start/continue a business: 62%
- Lack of work opportunities: 54%
- Lack of skills/qualifications: 35%

SKILLS AND ASPIRATIONS
75% of HHs have men of working age and 97% of HHs have women of working age. Of those:

Most commonly reported livelihood skills gained in country of origin:

- Farming: 64%
- Livestock: 44%
- Domestic work in the home: 28%
- Street trade: 26%

Most commonly reported livelihoods aspirations:

- Farming: 32%
- NGO or social work: 24%
- Health worker: 20%
- Tailoring: 40%
- Street trade: 29%
- Farming: 27%

PAST MOVEMENTS
% of HHs that had at least one member move in the year prior to data collection: 11%

Types of destinations:

- Urban area: 54%
- Rural area: 39%
- Another refugee settlement: 8%

Most commonly reported reasons for moving:

- Presence of education services: 46%
- Joining other family members: 39%
- Presence of health services: 8%

MOVEMENT INTENTIONS
% of HHs that have at least one member planning to move in the 6 months following data collection: 1%

Types of destinations:

- Urban area: 100%
- Rural area: 0%
- Another refugee settlement: 0%
- Another site in same refugee settlement: 0%

Most commonly reported reasons for planned movement:

- Presence of education services: 100%
