OVERVIEW

Kule Refugee Camp was established in May 2014 in response to the major refugee influx from South Sudan; it was not fully stabilized until 2016. The camp has now reached its full capacity, but the shortage of shelters remains a major challenge.

Refugee population in Kule Camp

A total of **43,911** persons of concern

RECENT DEVELOPMENTS

- On 19 and 20 November 2019, UNHCR and partners conducted participatory assessment with different refugee groups such as youths and elderly, and host community surrounding Kule Camp. The topics discussed included community participation and livelihood.
- On 25 November 2019, UNHCR and partners kicked off the 16 Days of Activism Against Gender-Based Violence Campaign in Kule Camp with cultural performances, drama and songs.

WORKING WITH PARTNERS

UNHCR provides protection and services to refugees in **Kule** in collaboration with:

- Administration for Refugee and Returnee Affairs (ARRA)** - In representation of Ethiopia's government - Camp Management and security; primary education, food and CRIs distribution; logistics.
- Action for the Needy in Ethiopia (ANE)** – Road maintenance; Shelter
- The Adventist Development and Relief Agency (ADRA)** – Sanitation and Hygiene
- Dan Church Aid (DCA)** – Provision of fresh food vouchers to vulnerable refugees
- DICAC** – Secondary Education
- Goal Ethiopia** – Nutrition
- HelpAge International** – Community-based Protection
- International Medical Corps (IMC)** – Mental Health; SGBV
- International Rescue Committee (IRC)** –Water Supply
- Natural Resource and Environmental Protection (NRDEP)** – Environmental protection
- NRC**: Information, Counselling and Legal assistance
- MCMDO** – Training on rearing poultry; establishment of gardens; seedling distribution
- Plan International** – Child Protection; pre-primary education, youth programs
- Medecins Sans Frontieres Holland (MSF-H)** – Health care
- Danish Refugee Council (DRC)** – Youth programs
- International Organization for Migration (IOM)** – Transportation of refugees
- World Food Programme (WFP)** – Food supply and transportation
- Rehabilitation and Development Organization (RaDO)**- support to persons with specific needs

MAIN ACTIVITIES

HEALTH

Health clinics are available for refugees and host communities wherein they receive medical care, including:

- Health services, including vaccination and anti-malaria campaigning activities
- Reproductive health and HIV/AIDS services
- Support to health centres with drugs and medical equipment.

NUTRITION

With support from UNHCR's partners, refugees have access to infrastructure and receive nutritional support, including:

- Provision of supplementary and therapeutic feeding as well as the promotion of child and maternal feeding practice (includes plumpy nuts)

WASH

- Refugees have access to 13.7 litres of potable water per person per day. The camp relies on the Itang water supply scheme composed of seven boreholes, with an additional three boreholes under development. Key tasks include:
- Management and monitoring of existing water systems, and borehole drilling; Sanitation and hygiene promotion; Construction and maintenance of family latrines and refuse pits, and WASH-related capacity building

PROTECTION & COMMUNITY SERVICES & REGISTRATION

UNHCR and its partners provide protection to refugees and promote durable solutions to their plight through:

- Camp management and security
- Support for persons with disability and other vulnerable groups
- Child Protection
- SGBV prevention, response services and capacity building
- Education and livelihood for more self-reliance

SHELTER

- Due to funding gaps, only about 60% of the refugee households have received transitional shelter support. The remaining either share the shelter with other family members or reside within the host community. Limited community support - with plastic sheets and ropes - are provided to the Extremely Vulnerable Individuals (EVI) for shelter maintenance.

CORE RELIEF ITEMS

- Core Relief Items - sleeping mats, kitchen sets, soap and sanitary materials - are distributed to refugees. Soap is distributed on a monthly basis alongside food distribution.

LOGISTICS & SITE PLANNING

- Refugees are transported and relocated from border areas and to the camps. In addition, the camp layout is conducted. Kule camp is comprised of seven zones (A, B, C, D, E, F and G).

EDUCATION

- Pre-schools and Child-Friendly Spaces (CFS) are run by Plan International. Primary and secondary education are run by ARRA and DICAC, respectively, with the latter constructing an additional block to enhance the enrolment rate. 1,599 refugees are enrolled in secondary school with no host community participation because of the far distance to school. Overcrowded classrooms and lack of essential school materials are some of the key challenges in the education sector.

ENVIRONMENT

UNHCR and its partners seek to reduce the environmental negative impact in areas hosting refugees through:

- Forest and environmental protection and capacity building on environmental protection.

FOOD

- On a monthly basis, food is supplied, transported and distributed to all refugees. General food basket includes cereals (13.5 kg), corn soy blend (1.5 kg), pulse (1.5 kg) and vegetable oil (0.9 kg), Salt (0.15kg).
