Although the financial tracking system (FTS) denotes that the Sector has been provided with 24% of funding towards its target of 105.4 million, this does not reflect the full funding picture for Protection operations in 2019. Many Protection interventions have been funded thus far through internal agency sources, including unearmarked contributions, that are not included in the tracking system. Any such sources of funding will be reflected at years end within the financial tracking system.
