Key achievements

• By the 3rd quarter of 2019 USD 11,439,525 was provided in basic needs (social transfer) monthly assistance to vulnerable individuals who live outside of camps under the Refugee pillar.

• The Winter Task force, an interagency group developing standards for the 2019-2020 winter assistance program, began meeting in August 2019.

• More than 84,000 cases who live outside of camps were identified as eligible for Winterization Assistance using the Vulnerability Assessment poverty scoring.

Challenges faced during the reporting period

• Failure to meet sector’s fund requirements under the refugee pillar in 2019 is the main challenge, with X% of a funding gap.

• By the end of the 3rd quarter, the Jordan Humanitarian Fund had still not identified a pool of funding for winter assistance. Few other agencies and organizations had identified funding. Early identification of funding is critical for a timely response to winter needs

Gaps and key priorities foreseen in the next quarter

◊ Gaps:
  • Due to limited funding, the basic needs sector covered only 61.1% of the planned target with cash based intervention.

◊ Key Priorities:
  • The identification of winter assistance funding to start assistance to beneficiaries in November 2019.
