expertise and that the Government of Uganda should engage with the UNDP Country office to concretize on the possible areas of support;

Concerns was raised by the World Bank regarding delays in approval processes for IDA 18 RSW pipeline operations. There are four pipeline operations with a total committed amount of USD 265 million. Approval needs to be fast-tracked so that Uganda benefits from 100% grant financing IDA 18 terms before the cycle ends in June 2020. The World Bank Managing Director of Operations announced a new funding of $2.2 billion dedicated window for refugees and host communities (WHR) over the next three years as part of IDA 19. Uganda will continue to have access to IDA financing to sustain the progressive policy environment.

UNHCR to lobby and implement projects for alternative sources of energy to stop dependency on wood fuel and to guarantee sustained asylum space;

Sweden pledged USD 4 million to UNHCR for the Green Fund. Respective countries and donors will study the proposals and see how to support Uganda accordingly.
6.0 Recommendations:

1. The Government of Uganda should fast track approval processes for pipeline operations from IDA 18 Sub Window for Refugee and Host Community (RSW) so that Uganda benefits from favorable 100% grant financing terms before cycle ends in June 2020.

2. The Government of Uganda should develop a strategy to clarify the measures it has put in place to address risk and fraud including the milestones registered to avoid being continually regarded as not serious in addressing issues of transparency. The measures may include reaching out to the specific countries through our missions.

3. Follow up should be undertaken with the respective countries on the bilateral meetings to concretize on the mechanisms of cooperation in place. This should be undertaken by OPM and the respective Ministries and with the assistance of our Permanent Mission in Geneva.

4. The UNHCR Country Representative should follow up with UNHCR headquarters regarding the allocation for Uganda as the 3rd largest refugee hosting Country in the world and with the most progressive policy. The allocation should be made transparently and in line with the CRRF modality of providing for refugees and host communities within the nexus.

7.0 Conclusion:

1. Gratitude was extended to the Country Representative UNHCR for facilitating Uganda’s delegation to participate in the Global Refugee Forum and to our Permanent Mission in Geneva for arranging all the bi-lateral meetings and preparing the delegation accordingly.

2. The Coordination meeting under the Chair of the Rt. Hon. Prime Minister;
   - Noted that Uganda was adequately represented at the Global Refugee Forum which took place from 16th to 18th December 2019 in Geneva, Switzerland.
   
   - Adopted the recommendations for implementation.

   - Allowed the summary report to be disseminated to stakeholders.
