I Learn From Home allows caregivers of 3 - 6 year olds to implement play-based learning at home. Seenaryo has adapted games, songs and stories from the Seenaryo Playkit, with all lessons linked to ECE curricula.

**How does it work?**

1. Every week, we WhatsApp the materials to a coordinator at your organisation
2. The coordinator forwards the material to caregivers
3. Caregivers lead the lesson and send you photos/videos/feedback

**What are the materials?**

Every week you will receive:

- **2x lesson plans**: simple bullet point instructions (for the caregiver)
- **2x lesson videos**: short videos showing how the lesson works (for the caregiver)
- **Music tracks**: many lessons include songs for caregivers to play from their phone
- **1x story video**: videos that children & caregivers watch and join in with, by acting with the storyteller

Each week there are two topics (e.g. Week 1: Hygiene & Food) with literacy & numeracy as cross-cutting subjects. Everything is in Arabic, including the literacy content.

**Don’t worry!** All files are compressed (maximum 15MB) so they are easy to WhatsApp, with minimal data usage.

**Can I see some examples?**
