The conflict in the BAY states is first and foremost a protection crisis and the Protection Sector response aims to provide an environment where IDPs, returnees and host communities can enjoy their rights and are enabled to re-establish their lives through child protection, gender-based violence, mine action and housing land and properties. The sector targeted 2.5 million people comprising of internally displaced persons (IDPs), IDPs and Refugee Returnees, and Host Communities. Initially, the sector had a financial requirement of $82.5M to implement 76 projects, which was reviewed upward to $104.4M to cover for new needs resulting from the COVID-19 pandemic. As of June, the sector has reached 765,000 of the people targeted with different humanitarian assistance, this includes 267,000 through general protection activities, 297,000 through child protection activities, 319,000 with gender-based violence activities, 67,000 with mine action activities and 11,000 through housing land and property activities.
General Protection outlined 3 objectives for 2020 which will be achieved through a set of interventions to prevent and/or address violations of human rights including abduction, arbitrary detention, forced displacement, restricted freedom of movement, lack of documentation, human trafficking and access to justice. The specific activities will include human rights monitoring, vulnerability screening, referral mechanisms, provision of documentation and legal advice, awareness creation. As of ending June the 267,000 of the people targeted has been reached through activities in the HRP.

At least 1 million girls (53 per cent) and boys (47 per cent) in need of care and protection from abuse, discrimination, exploitation, neglect and violence in north-east Nigeria are targeted with child protection interventions. Prevention and response priorities will focus on vulnerable children, their caregivers and communities amongst IDPs, returnees and host communities most affected by the conflict, and based on the level of needs, vulnerabilities and coping mechanisms.

Girls and boys between the age of 6 to 17 years, including adolescents, form 28 per cent and 25 per cent of the estimated population in need of child protection services respectively. The Sub-Sector response has prioritised localities most affected by the conflict, with Adamawa State representing 13 per cent, Borno State 77 per cent and Yobe State 10 per cent of the targeted population.

**MONTHLY REPORT | 2020**

SOURCE: CHILD PROTECTION SUB-SECTOR 5Ws

FEEDBACK: tomyemi@unicef.org, jmutiso@unicef.org
The overarching goal of the GBV Sub-Sector response plan is to provide safe and comprehensive services to those affected by gender-based violence and facilitate the recognition that GBV programming is the responsibility of all humanitarian actors and needs to be addressed with adequate, comprehensive and coordinated actions. The response plan is guided by three approaches: Life-saving response to survivors and those at risk of violence; GBV prevention and integration of GBV risk mitigation aimed at promoting dignity and safety in humanitarian action. Promotion of women leadership and participation in camp oversight groups will be prioritised. Emphasis is also placed on upholding the zero tolerance for Sexual Exploitation and Abuse (SEA) across the humanitarian system through promoting accountability, prevention measures and support to survivors.
