CCCM partner in Xudur conducted an IDP site verification exercise in August 2020.

In total, 16 IDP sites were assessed, hosting 4,129 households or 21,279 individuals.

42% of those assessed were male and 1.5% were people living with disability.

19% of the population is below the age of 5 while 6% above the age of 60.
