Context
UNHCR South Sudan is pleased to share the main findings from the quarterly household survey on spontaneous refugee returns from neighboring countries from April-June 2020.

By June 2020, over 300,000 South Sudanese refugees were estimated to have returned to South Sudan from Uganda, Kenya, Ethiopia, Sudan, CAR and DR Congo since November 2017, 180,387 of who followed the signing of revitalized peace agreement in October 2018. Over 38,308 of the returns were after COVID-19 outbreak in April 2020.

Household survey methodology
To learn more about their return conditions and future plans for the refugee returnees in return areas, UNHCR and partners conduct quarterly in-depth household-level surveys with returnees across the country.

Information is collected through key informant interviews and partner monitoring reports. Jointly with Government's Relief and Rehabilitation Commission, UNHCR validates the reports by interviewing randomly selected returnee households in areas of return during the period.

In total, 3,019 households (18,837 individuals) were assessed in high return areas of Eastern and Central Equatoria, Unity, Greater Bahr El Ghazal, Jonglei, Upper Nile.

Main findings
• Top assessed returns were from Uganda (13,529), followed by Sudan (2,820) and DRC (1,493). 58% of them were female headed households.
• Majority (65%) of assessed refugee returnees traveled by collective (pooled) or private cars, while a considerable 13% traveled on foot across the border mainly from Sudan and Ethiopia.
• Most of the returnees paid their transport fares by own means, while some were supported by relatives.
• Up to 69% of surveyed refugee returnees said they intended to stay permanently.
• Majority (82%) of assessed refugee returnees intended to remain in their return villages, 8% were undecided and 5% expressed desire to move to a different village within South Sudan.
• Overwhelming (98%) of the surveyed refugee returnees said they feel safe in their current location, 92% of those cited good relationship with their host communities.
• About 77% of assessed households reported owning a house and/or land in South Sudan, although 11% do not have access to house for various reasons including damages and occupied by others.

Main reasons for returns
1. Unemployment and livelihood opportunities in country of asylum (61%)
2. Improvement of security situation in South Sudan (40%)
3. Insufficient access to basic services in country of asylum (34%)
4. To reunite with family members (32%)

Key Protection concerns
1. Extortion by border officials to grant access to returns crossing borders, with 824 cases reported.
2. Confiscation of refugee documentation, especially from Uganda border crossing points
3. Medical emergencies during the journey due to bad weather and long distance for those returning by foot
4. Loss of property along the route to South Sudan.

From November 2017 to June 2020, UNHCR estimates some 301,033 South Sudanese refugees have returned to South Sudan, 180,347 since October 2018 after signing of revitalized peace agreement. To learn more about the challenges they face and their plans for the future, UNHCR conducts an in-depth, household-level survey of returnees across the country.

UNHCR and partners, on a quarterly basis collect information on refugee returns through key informant interviews, focus group discussions, and partner monitoring reports. Jointly with Government’s Relief and Rehabilitation Commission, UNHCR validates the reports by interviewing randomly selected returnee households in areas of return during the period.

3,019 households out of 5,105 households that arrived from April to June 2020 were interviewed, mainly from Eastern Equatoria.

**The Returnees** (21,153 refugees returned spontaneously between Apr-Jun 2020)

**Assessed households**
- 18,837 individuals
- 3,019 households

**Demographics**
- 58% female-headed households
- 1.5% child-headed households

**Age**
- Male: 9% 9%
- Female: 11% 11%

**Arrivals by County**
THE JOURNEY

Reported reasons for return
Note: One household reported one or more reasons for their return to country of asylum

Reported push factors:
1. Lack of employment and livelihood opportunities in country of asylum (61%)
2. Insufficient access to basic services in country of asylum (34%)
3. Insecurity in country of asylum (6%)

Reported pull factors:
1. Improvement of security situation in South Sudan (40%)
2. Reunite with family members (32%)
3. Improved availability of services in South Sudan (14%)

*Factors/conditions that push refugees back to South Sudan from countries of asylum
**Factors that attract refugees to return to South Sudan from countries of asylum

Mode of transport
- 65% returned by collective or private car
- 16% returned by other means
- 13% returned on foot
- 6% by bus, boat and airplane

Mode of payment
- 85% paid with their own money
- 15% other

Vulnerable individuals identified
- 178 Chronic illness
- 137 Physical disability
- 124 Older person unable to care for self
- 68 Visual impairment
- 61 Child at risk

FUTURE PLANS

Intended return duration
- 82% permanently
- 7% unsure
- 6% as long as peace continues
- 4% 1-6 Months
- 1% more than 6 months

Reuniting with the family
- 38%* said their family planned to meet them in South Sudan

Permanent returnee's intention
- 69% want to remain in the same village
- 11% undecided or do not know
- 9% want to move to another village
- 8% move to another state
- 3% other

Immediate family members return plan
- 530 later than 6 months
- 286 between 3 to 6 months
- 205 between 1 to 2 months
- 115 less than a month

Relationship with host community
- 98% feel safe in the current location
- 92% report a good relationship with the host community

Land in South Sudan
- 96% of returnees own land
- 10% of those, do not have access to it

Top 3 reasons for no access
1. Insecurity
2. Occupied by others
3. Other

Other: from another payam, unable to repair, flood, rain, etc.

Housing in South Sudan
- 77% of returnees own house
- 11% of those, do not have access to it

Top 3 reasons for no access
1. Destroyed
2. Damaged
3. Occupied by others

Other: motorbike, bicycle, animal riding, etc.
