

Iraq

January 2021

101,372

IDP and refugee families (**572,000 individuals**) have received COVID-19 cash assistance since April 2020

+127,000

Refugee and IDP women and girls have received sanitary kits since April 2020

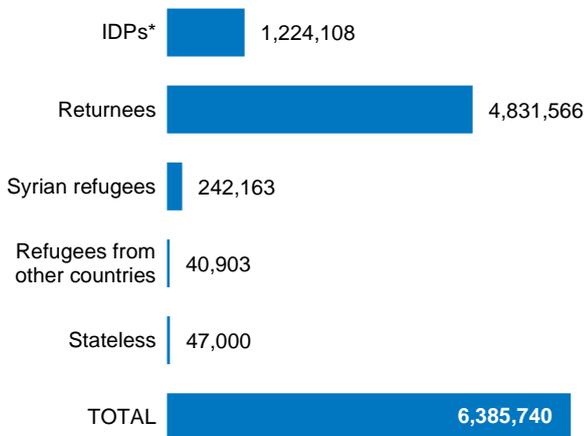

3,999

IDPs and refugees received remote legal assistance in December

+375,000

Persons of concern have benefitted from COVID-19 awareness raising since April

POPULATION OF CONCERN

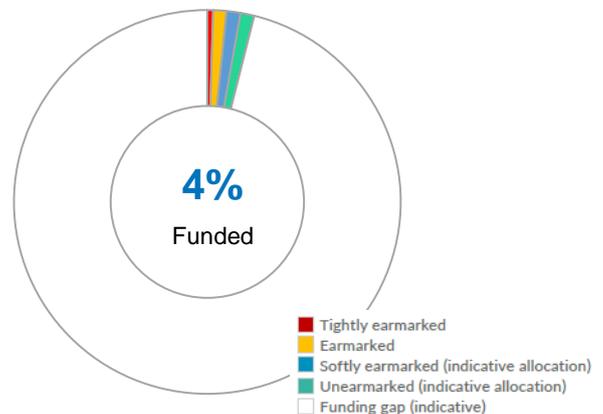

* Internally displaced persons (IDPs) since 2014, as of 31 December 2020, in accordance with IOM Displacement Tracking Matrix (DTM)

FUNDING (AS OF 12 JANUARY 2021)

USD 413.5 M

requested for the Iraq operation for 2021

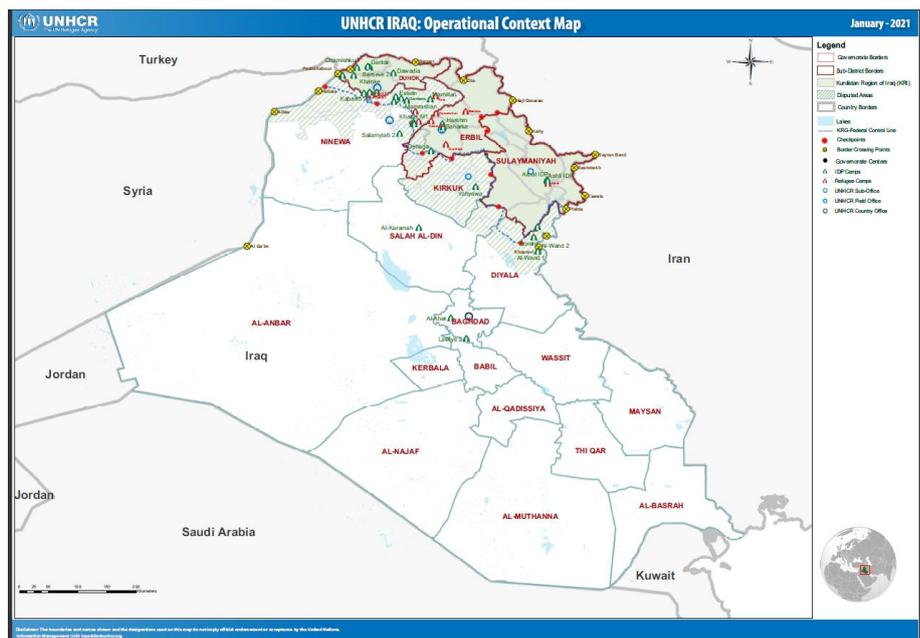

UNHCR PRESENCE

Staff:

- 366 National Staff
- 95 International Staff

Offices:

- 6 Offices located in Baghdad, Duhok, Erbil, Kirkuk, Mosul and Sulaymaniyah
- Field presence in Hilla (Babylon), Ba'quba (Diyala), Kerbala (Kerbala), Ramadi, Fallujah, Qaim (Anbar), Najaf (Najaf), Tikrit (Salah al-Din), and Khanaqin (Diyala) based in Kalar (Sulaymaniyah)

UNHCR produces regular updates on its response in Iraq, which can be found at [UNHCR Global Focus](#)

Working with Partners

- Through the Regional Refugee and Resilience Plan (3RP), UNHCR leads the humanitarian response for Syrian refugees in Iraq, in close coordination with humanitarian actors and government authorities, to protect and assist refugees and asylum-seekers. Under the 3RP, UNHCR leads the Protection, Shelter, and Basic Needs sectors, and co-leads Health with WHO and WASH with UNICEF.
- UNHCR is engaged in the inter-agency response to internal displacement and returns. UNHCR is leading the Protection, Camp Coordination and Camp Management (CCCM), and Shelter/Non-Food Items (also known as core relief items or CRIs) clusters, as part of the cluster coordination mechanism for the IDP response. UNHCR also co-leads with UNFPA and WFP the UN Sustainable Development Cooperation Framework (UNSDCF 2020-2024) Priority Working Group “Achieving Social Cohesion, Protection, and Inclusion. UNHCR is also part of the inter-agency Durable Solutions Task Force and is engaged in consultations on a Durable Solutions strategy document with the Government and other stakeholders to take the process forward.

Main Activities

Protection

- **Refugees** – UNHCR coordinates the response for all refugees in Iraq with the government, UN agencies, and local and international partners, including activities related to: registration; protection monitoring and advocacy; legal aid; psychosocial support; child protection; prevention, risk mitigation and response to gender-based violence (GBV) and sexual exploitation and abuse (SEA); and resettlement to third countries which is pursued for a small number of refugees with acute vulnerabilities/protection needs.
- **IDPs** – Direct interventions are undertaken with local, regional, and national authorities to ensure that the displaced can access safety in camps and non-camp locations. Protection monitoring teams have been deployed to identify protection and assistance needs, which directly inform protection responses, including: provision of legal assistance on a range of issues such as missing civil documentation; prevention, risk mitigation, and response to GBV and SEA; child protection; the reunification of separated families; and the coordination of IDP protection responses with the government, NGOs and other UN agencies.
- **Returnees** – Durable solutions, including voluntary, safe, and dignified return, are a strategic priority for UNHCR and the humanitarian community in Iraq. UNHCR monitors the return of displaced persons to their areas of origin and advocates with authorities when there are incidents of barred returns, risks of forced returns to areas that are unsafe due to contamination of explosive remnants of war (ERW) and improvised explosive devices (IED), presence of militias, widespread destruction of property, and absence of critical infrastructure and basic services.

Camp Coordination and Camp Management

- As the CCCM Cluster and 3RP lead, UNHCR works with local authorities and humanitarian actors to provide coordinated services to IDP and refugee camps. In camps, this translates to ensuring adequate shelter, delivery of food and water, presence of education and health facilities, as well as capacity building for camp management actors and service providers. Partners’ mobile teams provide CCCM services to camps and informal settlements throughout Iraq. UNHCR, alongside other humanitarian partners, are advising on a government-led process for the consolidation of camps in line with the Principled Returns Framework. In mid-October 2020, the Government of Iraq embarked on sudden IDP camp closure exercise, which resulted in the closure or recalissication of 16 IDP camps and informal sites, and affected over 42,400 individuals who left these sites. As of December 2020, over 202,000 IDPs are hosted in 25 camps mainly in KRI, with only two camps remaining in federal Iraq.
- 100,000 Syrian refugees reside in ten camps throughout the Kurdistan Region of Iraq (KR-I). Currently, 99 per cent of Syrian refugees live in KR-I, with 41 per cent residing in camps and the remainder in urban, peri-urban, and rural areas.

Shelter and NFIs

- UNHCR provides shelter assistance, core relief items, and coordinates with humanitarian actors to complement the work of local authorities to improve living conditions of IDPs and refugees in camp and non-camp settings throughout Iraq. This includes the distribution of tents, blankets, mattresses, kitchen sets and sanitary kits.

Basic Needs

- UNHCR assists vulnerable displaced and refugee families to cover their most basic needs through the distribution of cash assistance. In areas where markets are functioning and accessible to beneficiaries, unconditional cash provides an efficient way to meet the needs of those affected by displacement, allowing families to prioritize their own needs while upholding their dignity and making them less likely to resort to harmful coping strategies.

COVID-19 in Iraq

As of 20 January, the Iraqi Ministry of Health has confirmed 609,852 COVID-19 cases throughout the country, including 12,962 fatalities. The majority of cases have been detected in central and southern governorates, with Baghdad accounting for more than 30 per cent of the cases, Baghdad, followed by Basrah, Erbil, Duhok, and Sulaymaniyah Governorates. Meanwhile, the Government of Iraq (GoI) and the Kurdistan Regional Government (KRG) have conducted over 5.1 million tests.

After the closure of border crossing points for several months, the Peshkhabour Border Crossing Point (PKBCP) has been opening intermittently, facilitating the readmission to Iraq of Syrian refugees who were already registered in the Kurdistan Region of Iraq (KR-I). UNHCR continues to advocate with the GoI and the KRG to ensure refugees and asylum-seekers can safely enter the country. UNHCR has been allowed to resume certain activities such as the distribution of civil documentation to IDPs and refugees in collaboration with the GoI, notably the distribution of nationality certificates to IDPs in cooperation with the Directorate of Civil Status. In addition, UNHCR resumed ASSIST enrolment and household vulnerability assessment activities in areas of return.

According to UNHCR's feedback and complaint mechanisms, and ongoing remote protection monitoring, the main concern raised by refugees, IDPs, returnees, and persons at risk of statelessness across Iraq is the inability to access livelihood opportunities as a result of current and previous movement restrictions. Most individuals affected by displacement were living on daily wages, and the movement restrictions have significantly affected their ability to make ends meet. This has translated into an increase in the number of individuals resorting to negative coping mechanisms. Challenges to reach persons of concern in certain locations, psychological trauma, stress and anxiety, halt of education activities, and the rise of domestic violence, among others, have also been raised widely as a direct concern.

UNHCR Response to the COVID-19 outbreak in Iraq

Most basic services continue to function (albeit at limited capacity) in camps and areas with a high density of displaced populations. UNHCR has adopted new distribution modalities to ensure assistance continues to be delivered. The new modalities include door-to-door assistance to avoid mass gatherings and respect physical distancing, and remote protection monitoring, legal counseling, and psychosocial support, among others. In addition, UNHCR is implementing the following series of measures across the country to respond to the virus outbreak:

- **Access to basic hygiene items:** UNHCR provided IDP and refugee families in camps and in urban, peri-urban, and rural areas with cash assistance of IQD 240,000 (USD 200) so they can afford basic hygiene items. A total of 101,372 refugee and IDP families throughout Iraq, along with 127,920 sanitary kits for women and girls since April 2020. UNHCR is planning to provide another round of COVID-19 cash assistance during the course of 2021.
- **Health awareness:** UNHCR is conducting ongoing health awareness-raising sessions on transmission and prevention of COVID-19 in refugee and IDP camps, as well as in registration centres and some urban areas. Posters and leaflets are distributed through camp management, PHCCs, and community outreach volunteers;
- **Provision of medical Protective Personnel Equipment (PPE):** UNHCR is procuring medical PPE, masks with filters, and disposable shoes to use at borders and in refugee camps.

At this critical time, humanitarian action to save lives and alleviate the suffering of vulnerable populations remains imperative. UNHCR further appeals to donors not to deprioritize funding for regular programmes and thanks to major donors of un-earmarked and broadly earmarked funds as well as donors who have contributed directly to Iraq operation in 2020 and 2021.
