In 2021 the Protection Sector targeted 2.5 million people in 61 LGAs across the BAY states. Based on monitoring and vulnerability screening, the Sector’s interventions will mitigate the harm caused by violence, exploitation or serious neglect. This includes psychosocial support, legal counselling, in-kind and cash assistance, case management and referral services. The Sector will also seek to prevent and reduce the risk of violence and abuse, and to counter negative coping mechanisms. These actions involve raising awareness of explosive hazards, improving access to civil documentation and basic services and sustainable durable solutions.

OVERVIEW BY SECTOR OBJECTIVES AND INDICATORS

1. To stop or mitigate the harm caused to persons who have suffered violence, coercion, exploitation, serious neglect or discrimination, and to restore - as much as possible - the person’s capacity to live safe and dignified life

- Number of women, girls, boys and men who received legal assistance or counselling related to a protection incident
  - Target: 690K
  - Reached: 5,840

- Number of women, girls, boys and men provided or referred to support services
  - Target: 749K
  - Reached: 255,818

- Number of advocacy interventions addressing the authorities, donors, HCT or human rights mechanisms
  - Target: 48
  - Reached: 1

2. To reduce the vulnerability of persons at heightened risks of violence, exploitation, serious neglect or discrimination; enhance their capacities and reduce the risk of resorting to negative coping mechanisms

- Number of women, girls, boys and men provided with personal identification documents
  - Target: 801K
  - Reached: 21,500

- Number of women, girls, boys and men screened, registered and monitored to identify vulnerability and exposure to a protection risk
  - Target: 1.2M
  - Reached: 385,628

- Number of women, girls, boys and men returnees provided with protection information and assistance
  - Target: 206K
  - Reached: 1,760

- Number of women, girls, boys and men receiving protection information and assistance
  - Target: 224K
  - Reached: 307,904

- Number of advocacy interventions addressing the authorities, donors, HCT or human rights mechanisms
  - Target: 48
  - Reached: 1

3. To raise awareness and build the capacity of services providers, including duty bearers, community members and humanitarian actors, in order to reduce protection risks, identify and support the most vulnerable ones.

- Number of women, men, boys and girls (in the community) who participated in awareness raising activities on protection approaches or issues
  - Target: 3,660
  - Reached: 0

- Number of women, men, boys and girls (in the community) who participated in awareness raising activities on protection mainstreaming
  - Target: 3,660
  - Reached: 0

- Number of persons non-protection specialists provided with training on protection approaches and issues
  - Target: 3,660
  - Reached: 0

- Number of staff, partners and communities trained in working with people with disabilities
  - Target: 3,660
  - Reached: 0

- Returnees: 36K

SECTOR FUNDING

- Funding Gap: $89.3M (97.8%)
- Funds Received: $2.0M (2.2%)

MONTHLY TREND OF PEOPLE REACHED
A total of 1 million children (53% girls, 47% boys) and caregivers will be targeted with child protection services to prevent and respond to abuse, exploitation, neglect, violence and discrimination in north-east Nigeria. Forty-three per cent of the targeted population for the child protection response is in Borno state, 33% in Adamawa and 24% in Yobe. Among the LGAs in Borno, Maiduguri has the highest number of targeted children and caregivers. Overall, the Sub-Sector will aim to reach approximately 8,000 children living with disabilities with child protection services.

**OVERVIEW BY SECTOR OBJECTIVES AND INDICATORS**

1. To stop or mitigate the harm caused to persons who have suffered violence, coercion, exploitation, serious neglect or discrimination, and to restore - as much as possible - the person's capacity to live safe and dignified life

- Number of unaccompanied and separated girls and boys reunified with their families
  - Target: 505
  - Reached: 46

- Number of girls, boys and young people affected by grave child rights violations benefitting from community-based reintegration assistance
  - Target: 6,076
  - Reached: 2,236

- Number of girls and boys living with disabilities affected by protection risks who receive child protection services.
  - Target: 8,015
  - Reached: 598

- Number of girls and boys affected by protection risks who receive specialized support services.
  - Target: 4,549
  - Reached: 253

- Number of children affected by protection risks placed in alternative care.
  - Target: 2,527
  - Reached: 136

2. To reduce the vulnerability of persons at heightened risks of violence, exploitation, serious neglect or discrimination; enhance their capacities and reduce the risk of resorting to negative coping mechanisms

- Number of girls and boys benefiting from structured recreational and creative services
  - Target: 51K
  - Reached: 114,094

- Number of caregivers benefiting from psychosocial support services including positive parenting
  - Target: 51K
  - Reached: 8,584

- Number of adolescent girls and boys benefiting from life skills education.
  - Target: 169K
  - Reached: 3,314

3. To raise awareness and build the capacity of services provides, including duty bearers, community members and humanitarian actors, in order to reduce protection risks, identify and support the most vulnerable ones.

- Number of children and community members benefiting from strengthen community-based structures for child protection
  - Target: 317K
  - Reached: 66,429
The GBV Sub-sector response plan’s main goal is to ensure safe and multi-sector services to those affected by gender-based violence and facilitate the recognition that GBV programming is the responsibility of all humanitarian actors and needs to be addressed with adequate, comprehensive and coordinated actions. Three approaches guide the response plan: life-saving response to survivors and those at risk of violence; GBV prevention and integration of GBV risk mitigation aimed at promoting dignity and safety in humanitarian action; and emphasis on upholding zero tolerance for sexual exploitation and abuse (SEA) across the humanitarian system through promoting accountability, prevention measures and support to survivors.

**OVERVIEW BY SECTOR OBJECTIVES AND INDICATORS**

1. To stop or mitigate the harm caused to persons who have suffered violence, coercion, exploitation, serious neglect or discrimination, and to restore - as much as possible - the person's capacity to live safe and dignified life

   - Percentage of reported sexual violence cases that were referred (and received) medical care within 72 hours
