

**UNFPA Moldova
Reproductive Health
Component Emergency
Response**

Sexual and Reproductive Health Minimum Initial Service Package (MISP) for Crisis Settings

- The minimum, life-saving sexual and reproductive health needs that humanitarians must address at onset of an emergency within the first 48 hours
- is a set of priority life-saving SRH services and activities to be implemented at the onset of every humanitarian emergency to prevent excess sexual and reproductive health-related morbidity and mortality. All service delivery activities of the MISP need to be implemented simultaneously through coordinated actions with all relevant partners.

Prevent mortality, morbidity, and disability in crisis-affected populations

OBJECTIVE 1: Ensure the health sector/ cluster identifies an organization to lead implementation of the MISP.

OBJECTIVE 2: Prevent sexual violence and respond to the needs of survivors

OBJECTIVE 3: Prevent the transmission of and reduce morbidity and mortality due to HIV and other STIs

OBJECTIVE 4: Prevent excess maternal and newborn morbidity and mortality

OBJECTIVE 5: Prevent unintended pregnancies

OBJECTIVE 6: Plan for comprehensive SRH services, integrated into primary health care as soon as possible

Number of pregnant women

➤ **Scenario 1: Current situation - 106,000 refugees**

- ~1,000 pregnant women which need assistance (ANC, RH services, assisted normal delivery and surgical intervention)

➤ **Scenario 2: Number of refugees – 250,000**

- ~ 4,000 pregnant women which need assistance (ANC, RH services, assisted normal delivery and surgical intervention)

Service delivery (financing)

- **GVT supports on only emergency services for pregnant women (normal delivery, caesarian section) (~ cost of services between 180 – 380 EURO)**
- **Not providing RH services at primary health care level including ANC**
- **From April GVT (State Insurance Company) will need financial support for service delivery at all levels – budget deficit as refugees are not part of insurance scheme**

Demographic data projection for worse case scenario (250,000)

Break-down of adolescents (10-19) of affected population

Adolescent boys (10-19)

Adolescent girls (15-19)

Adolescent girls (10-14)

Referral (secondary) level of service delivery

Assessment of selected SRH facilities

➤ **The Public Medical Sanitary Institution Institute of Mother and Child (PMSI IMC)**

40.000 hospitalized patients and 150.000 outpatients consulting from all over the country. Records over 5,500 births annually. Total bed capacity is 1003 and more than 2,000 employees (both medical and administrative staff).

➤ **The Public Medical Sanitary Institution Municipal Clinical Hospital no.1 "Gheorghe Paladi" , Perinatal Centre**

Records of 7,500 assisted deliveries annually. The Center provides services to the population of the Chisinau municipality and the adjacent localities (about 1 mln. population), as well as receiving births from all over the country. The staff of the Center consists of 55 obstetricians-gynecologists, 25 neonatologists and 20 professors. At present, the Center provides urgent inpatient and consultative medical care to Ukrainian refugees and has so far provided medical care more than 30 of refugee women.

Assessment of selected SRH facilities

➤ **Public Medical Sanitary Institution, Cahul Rayon Hospital, Perinatal Center**

According to the regionalization plan, Cahul Hospital is designated as a regional hospital for the Southern region of the country. The Perinatological Center is a secondary level medical institution with a total capacity of 40 beds, including for obstetrics profile - 20 beds, pregnancy pathology profile - 10 beds, gynecology profile - 10 beds. There are about 1,000 assisted deliveries annually. The center offers perinatal services to women from Cahul district, partially the population from Vulcanesti and Taraclia districts, over 280 thousand population.

➤ **Public Medical Sanitary Institution, Balti Clinical Hospital, Perinatal Center**

The institution solves the most difficult and critical medical cases by providing medical services to about 1.05 million people of Balti municipality and 11 districts from the North region of the country. The hospital bed capacity is 750 out of which 75 are in the Perinatal Center. The Center receives up to 3,000 births per year. Because many maternity hospitals are closed in the adjacent rayons (as have less than 500 births per year), it is expected that the number of women who will give birth at the Balti Perinatal Center will grow.

Procurement of Emergency RH kits

Kit No	Description	Kit Q-ty	Total cost in \$
Kit 1 A	Condoms	25	13,751
Kit 3	Post rape treatment	17	19,340
Kit 4	Oral and injectable contraception	25	20,801
Kit 5	Treatment of sexually transmitted infections	25	38,168
Kit 6 A	Clinical delivery assistance. Midwifery Supplies, Reusable Equipment	9	11,318
Kit 6 B	Clinical delivery assistance. Midwifery Supplies, Drugs and Disposable	9	12,027
Kit 7 A	Intrauterine devices (IUDs)	9	3,534
Kit 8	Management of miscarriage and complications of abortion	9	8,986
Kit 9	Suture of tears (cervical and vaginal) and vaginal examination	9	3,799
Kit 10	Vacuum extraction delivery	9	8,734
Kit 11 A	Obstetric Surgery and Severe Obstetric complications, Reusable Equipment	3	3,351
Kit 11 B	Obstetric Surgery and Severe Obstetric complications, Drugs and Disposable Equipment	3	13,341
	Misoprostol	31	2,493
	Mifepristone	16	16,832
TOTAL			176,475

Procurement of lifesaving medical equipment

Medical equipment in four perinatal centers to strengthen the capacities of:

- **operating theatre**
- **delivery rooms**
- **postoperative ICU unit for mother and neonatal ICU**

Steps forward

- **Assessment of the capacities of primary level to provide SRH services with priority in the border areas in the North and South parts of the country**
- **Assess of availability of ambulance emergency services for pregnant woman**
- **UNFPA will initiate to co-financing of service delivery on RH issues including assisted normal delivery and caesarian section**
- ***Transnistria ???***
- ***Women for postnatal care ?***
