General Updates

Site Verification Assessments: Five site verification assessments were conducted (Afgooye, Luq, Burtinle, Garo and Galdogob districts) which verified 104 IDP sites hosting a total of 20,786 households or 117,889 individuals. Furthermore, comprehensive reports for each district with sex and age disaggregated data has been circulated to partners, humanitarian and durable solutions agencies and respective authorities.

Capacity Building: Partners conducted site-level community workshops aimed at building capacities of IDP communities to self-manage and prepare for possible disasters within their settlements. Additionally, capacity building initiatives in Hargeisa, Galkayo and Garowe occurred with the focus on improving practices of gender equality. Moreover, similar workshops were organized for NGO partners and local authorities where 363 participants attended. The objective of these trainings was to strengthen the capacity of communities as part of the initiatives to strengthen the capacity of the CMCs to participate in CCCM activities.

Coordination Meetings: During the reporting period, partners conducted coordination meeting with Local Authorities in Kahda, Daynille and discussed drought displaced trends of new arrivals in sites with ways to enhance advocacy on service delivery. Participants held site-level meetings with CMCs and community members in Badhan, El Alweyn, Banadir, Galgaduud, and Gedo to allocate living space for newly displaced populations and allow displaced populations access existing services. Jubballah Commission for Refugees and IDPs (UCOR) coordinated with nutrition partners in Kismayu and conducted nutrition screening for newly displaced children living in IDP sites outskirt of Kismayu town.

Service Monitoring: CCCM partners enhanced site monitoring activities in sites that received households displaced due droughts to assess availability of services and identify gaps. During March, more than 847 IDP sites in 21 districts were sampled during the monitoring activity. Through the monitoring report, 243 IDP sites in Afgooye, Bardole, Bako, Kaha and Daynille reported gaps in Shelter and NFI's Education, GBV and Child Protection services whereas in Galumud, partners reported gaps in services for newly established IDPs. Key service gaps in Beletweyne and Jowhar IDP sites include 90% of assessed sites mentioned gaps in Shelter, GSLO and Galdogob districts) which verified 104 IDP sites hosting a total of 70,088 individuals were received at CCCM partners managed sites.

For more details on new arrivals to IDP sites please see the New Arrivals Tool (NAT) Dashboard: https://bit.ly/3HYA7F

Population Demographics

To improve the living conditions and protection of IDPs in sites and settlements and ensure equitable access to services and assistance of all persons in need, with a clear focus on moving toward attaining durable solutions with full participation of the displaced and host communities.

Baseline Data

1.32M IDPs reached by CCCM partners (from Mar 2022)

State Level Coordination Hubs

- Banadir
- Jubba
- South West State
- Hirshabelle
- Galmudug
- Puntland
- Somaliland

Disability

- 22% boys
- 29% girls
- 5% Disability

TARGETED BY CLUSTER

- 17% men
- 21% women
- 11% elderly
- 68% reach/target

# of sites with established CCCM mechanisms

- 1,003 sites
