UNHCR partner Proliska continues to deliver food assistance from Bakhmut to the residents of remote localities in Donetsk oblast affected by hostilities. Over 20,000 pieces of bread have been distributed to date. ©Proliska Humanitarian Mission

Two months in, the human impact and the suffering already caused by the war against Ukraine are staggering. More than a quarter of the population of Ukraine has been forced to flee their homes while millions remain in areas of intense fighting with urgent need of humanitarian assistance and protection.

UNHCR operates as part of the inter-agency humanitarian response and is leading three clusters - Protection, Shelter and NFI (non-food items), and CCCM (Camp Coordination and Camp Management).

The overall goal of UNHCR’s operational delivery is to provide immediate relief to those fleeing military hostilities, while laying the groundwork for sustainable and durable solutions, working closely in coordination with state and local authorities, community-based actors and partners.

In mid-April, UNHCR signed Memoranda of Understanding with three key Ministries, which help to ensure alignment between UNHCR’s activities and social programmes, and that our response is effectively reinforcing and complementing national systems.

Key areas of response include:

**Protection:** Providing integrated protection advice and services, including psychosocial support and legal aid, at border crossing points, online and in locations where people have fled.

**Cash Assistance:** Progressively rolling out a large-scale multi-purpose cash assistance programme in eight oblasts to support displaced people to meet their immediate basic needs with expansion to further oblasts underway.

**Essential Items:** Delivering essential items such as bedding and hygiene kits, food and shelter materials to individuals and households, including in hard-to reach areas with humanitarian convoys.

**Shelter & CCCM:** Supporting local authorities in IDP-receiving locations to expand the capacity of reception and collective centres with essential items and refurbishments, while also planning diverse housing solutions for medium and longer-term stay and site coordination to ensure IDP’s safe access to services.
