The Information and Orientation Centers (Puntos de Atención y Orientación in Spanish) are a UNHCR initiative developed since 2017 and currently implemented in 19 departments.

The PAOs are physical spaces where the population we serve can access reliable and secure information and develop the capacity to make informed decisions regarding access to rights, protection pathways and services available in the territory. In this way, refugees and migrants, internally displaced persons, returnees, and any person in need of protection can ask questions and find answers.

Persons assisted by the PAOs are registered in UNHCR’s case registration and management system (PRIMES), which allows the collection, maintenance and analysis of data and information on each person assisted, from the first contact until durable solutions are reached. The protection response is tailored, according to the Specific Protection Needs (SPN) and main trends identified. Following the identification of the SPN, a referral is made to specialized services to ensure an appropriate specialized response.

Main information and assistance subjects:
- The right to asylum and the refugee status determination procedure
- Access to the Temporary Protection Status for Venezuelans Migrants (ETPV)
- Access to nationality and documentation
- Access to employment, health, and education
- Access to legal assistance and justice
- Institutional pathways for assistance, including those for the displaced population
- Protection risks and services available for people on the move

Progress and results (July - September 2022)

- **Individual registrations**: 22,654
- **Receptions**: 859
- **Assistances**: 810
- **Referrals**: 8,909
- **Communications**: 38,020

Specific Protection Needs (SPN) identified and addressed

- **Legal and physical protection**: 34,515
- **Serious medical condition**: 3,211
- **Children and adolescents at risk**: 2,810
- **Single parent household**: 1,959
- **Women at risk**: 980

42,241 SPNs identified and addressed through referrals between July - September 2022

Country of origin

- **Venezuela**: 84%
- Colombia: 15%
- Other countries: 1%

Geographic coverage of mobile PAOs

- **SO Riohacha**: >5,100 km traveled
- **SO Medellín**: >3,300 km traveled
- **SO Cúcuta**: >16,000 km traveled
- **SO Cali**: >2,600 km traveled
- **FO Bogotá**: >2,200 km traveled

- **SO Cúcuta**: >29,500 km traveled over 30 municipalities

The services provided by the PAOs are delivered by 1 national coordinator, 5 regional coordinators, 4 assistant coordinators, 94 advisors, 11 assistants, and 4 drivers.

---

1 Accumulated figures for the period 2019 to 31 December 2022.
2 PRIMES is UNHCR’s registration ecosystem which includes the proGres data base that allows for collection, analysis and case management of data and information on each person we serve, from initial contact to the achievement of durable solutions, identifying trends and adjusting the protection response according to the Specific Protection Needs (SPN) identified. Registration can be done in two ways, through Individual Registration and through Reception records (or pre-registration). The Individual Registration collects detailed information on each member of the registration group in terms of biographical data, legal status, SPNs, among others; the Reception only collects basic information from the focal point of each Reception group, accompanied by the description of the group in terms of sex, age and the identification of the SPNs in a group manner. For more information on the people assisted by UNHCR registered in PRIMES, please click here.
3 UNHCR prioritizes Individual Registration, which is a more complete registration record than Receptions.
4 The mobile PAOs do not cover all the municipalities of each of the highlighted departments; the missions of the mobile PAOs are prioritized by each Sub-Office.
