Within the framework of the inter-agency Regional Refugee Response Plan (RRP), 21 partners in Slovakia have joined efforts to provide protection services and multi-sectoral humanitarian assistance to refugees from Ukraine, third country nationals, other persons in need, and impacted host communities. The current number of the RRP partners is only indicative and not exhaustive of the operational number of humanitarian partners in Slovakia. The RRP in Slovakia complements the Government-led efforts and it builds on the collective and coordinated work already being done in the country, including with the support of volunteer groups and other local responders, and promotes an area- and needs-based approach.

The figures below represent a non-exhaustive list of achievements by partners. Reporting on implementation of activities, collection and analysis of data are ongoing and the fullest possible set of regularly updated information will be made available, accordingly.

The data and related information are available and easily accessible in the Operational Data Portal for the Ukraine Refugee Situation. The number of individuals reached is an estimate and can contain double counting. Figures include population remaining in the country, and moving forwards to other countries. Not all partners reported age and gender breakdown, so the percentages were obtained on estimations.
