

CCCM Cluster Somalia – Proposed Activities Set

Overall Objective:

To improve the living conditions and protection of IDPs in sites and ensure equitable access to services and assistance of all persons in need, with a clear focus on moving toward attaining durable solutions with full participation of all stakeholders.

Objective:	
Strengthen the predictability and effectiveness of multi sectorial interventions at site level and/or areas of concentration of sites	
Outcome:	<i>CCCM coordination mechanisms are established/reinforced at appropriate levels</i>
Activity:	Set up of CCCM coordination structures in collaboration with appropriate government counterpart
Activity:	Participate on behalf of CCCM in relevant coordination forums
Activity:	Ensure through CCCM coordination that relevant responders are mobilised towards providing relevant sectorial assistance to those identified as very vulnerable
Activity:	Ensure the relevant Protection and Shelter responders are aware and take action with regards to HLP issues, specifically evictions are followed up with limited rental support or income generating opportunities
Outcome:	<i>Site level information is available and shared with stakeholders</i>
Activity:	Conduct Detailed Site Assessments on 3 month basis
Activity:	Establish/update master list of sites at appropriate geographic level
Activity:	Establish/update service mapping of partners operating in sites
Activity:	Coordinate/ conduct intention surveys with relevant partners and clusters to ensure the intentions of populations are understood and supported
Outcome:	<i>Management of sites and settlements is improved</i>
Activity:	Monitor service delivery at site level to ensure that there are no gaps or duplication of activities
Activity:	Establish roving CCCM teams for site monitoring and community engagement
Activity:	Identify existing governance structures and focal points for sites
Activity:	Provide capacity building to existing governance structures/focal points
Activity:	Together with other clusters and partners, as well as the authorities, coordinate the establishment/ efficient use of referral pathways for both protection (including SGBV) and assistance/service delivery to persons with special needs.
Activity:	Engage with national government and local authorities in relevant geographical locations to develop contingency plans for future IDP influxes

Objective: Improve community engagement, participation, living conditions and safe access to services in selected sites	
Outcome:	Involvement and participation of affected community is ensured/ increased
Activity:	Mapping of existing community structures

Activity:	Identify and support governance structures, encouraging participation of all different segments of the displaced population and, as relevant, from among the host communities
Activity:	Provide training on CCCM principles to community governance structures
Outcome:	<i>Affected populations living in sites have the information they need to access services</i>
Activity:	Establish/reinforce mechanisms for communication of multi-sector services available per geographical area or in IDP sites <ul style="list-style-type: none"> • Communication/ information centers (in coordination with local authorities and protection actors) • Mobile outreach teams • Mass sensitization (Radio programming, sign boards, text campaigns)
Activity:	Harmonize feedback mechanisms relevant for sites across all clusters
Outcome:	<i>Sites are safe and hygiene conditions are ensured</i>
Activity:	Provide training on-site maintenance to camp committees
Activity:	Support community led site maintenance activities to ensure upkeep of sites (cash for work, site maintenance committees)
Activity:	Implement emergency sites improvement projects to minimize protection risks and ensure safety in sites (flood mitigation, fire prevention).

Objective: Strengthen community self-management to promote durable solutions for displaced people in sites	
Outcome:	<i>Affected populations are supported towards self-determination regarding their future.</i>
Activity:	Conduct micro-level market assessments towards identifying income generating opportunities of those displaced located in IDP sites
Activity:	Implement community based activities to promote community cohesion and recovery.
Activity:	Provide platforms for IDPs in sites for access to vocational training and skill diversification opportunities
Activity:	Support IDPs in sites with temporary employment opportunities
Activity:	Support communities in IDP sites towards self-reliance in locations where prospects of obtaining land rights is achievable
Activity:	Where relevant, engage with authorities to advocate for increased service provision in areas of origin if conditions are suitable or area of displacement to support durable solution
