Regional Cash Working Group

You can contact the Cash Working Group Coordination team at cbi.rwg@gmail.com

1. What is the R4V?

In April 2018 the UN Secretary-General provided direction for IOM and UNHCR to lead and coordinate the regional response to the situation of refugees and migrants from Venezuela seeking access to basic rights and services, protection, as well as self-reliance and socio-economic integration. Further to this direction, the Regional Inter-Agency Coordination Platform was established as a forum to coordinate the response efforts across 17 countries of Latin America and the Caribbean, with a particular focus on achieving coherency and consistency throughout the response.

At national and sub-regional levels, the Regional Platform is complemented by local coordination mechanisms. Dedicated National and Sub-regional Platforms, collaborating closely with host governments are charged with the operational coordination and implementation of the Regional Refugee and Migrant Response Plan (RMRP). Such coordination platforms are in place in Brazil, Chile, Colombia, Ecuador, and Peru - at national levels - and in the Caribbean, Central America & Mexico, and Southern Cone - at sub-regional levels. Their configuration is based on each situational context and the operational capacities of governments and RMRP partners, taking into account existing coordination structures.

2. Is there any Cash Working Group under the Regional Coordination Platform -R4V?

Yes. The Regional Cash Working Group is co-led by the **World Food Program (WFP) and the International Federation of Red Cross and Red Crescent Societies (IFRC)**. The overarching goal of the group is to: *support national responses through national / sub-regional platforms with Cash and Voucher Assistance (CVA) design, implementation, M&E phases, and all response processes related to CVA.* **You can find ToR and workplan ([here](#)), to be updated for 2021.**

3. Why is it important to have a Regional Cash Working Group?

Besides technically supporting national responses, the RCWG aims to promote the cross-fertilization of knowledge between national groups working in the Refugee and Migrant Response, for example, in terms of assessments, targeting, delivery mechanisms, payment methods, or monitoring of results, to name a few.

Moreover, the RCWG fosters the coordination of cash responses with other sectors and intersectoral issues under the R4V, in order to enhance impact and ensure efficiency. It also liaises with other platforms and actors from the humanitarian and development spheres trying to seek coherence, aligning visions, and integrating cross-cutting issues such as gender, age, and diversity.

The RCWG procures visibility of national cash working groups in regional and global forums. Finally, the RCWG aims to provide technical advice to national responses, seeking to contribute to the strengthening of national systems and ensuring sustainability while delivering timely responses.

4. How can I contact the Coordination team? How frequently do members meet? How can I subscribe to the e-mailing list?
