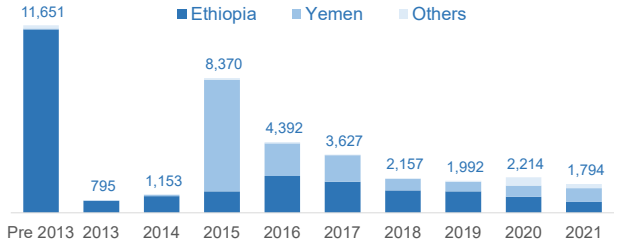
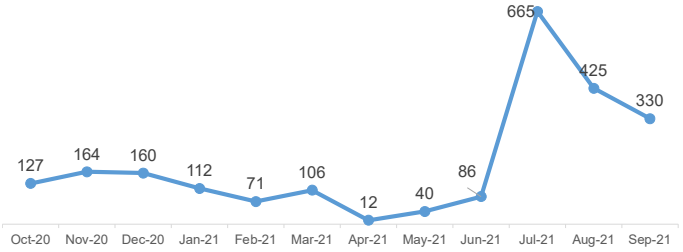
The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the United Nations.

Year of Arrival



Arrivals (12-month trends)



*In April 2021, Somalia's operation is migrated from proGres version 3 to proGres version 4 which is an online built software that is used for registration, identity management, case management, and statistical analysis. Except for the government counterpart in Somaliland, NDRA uses proGres version 3 that planned to migrate in November this year.
