ACTION POINT	STATUS
Discussion around eviction trends in IDP sites in Marib and proposed solution in (Al Rawdhah Al jadidah, Al tadhamon, Saba University, Kanteerat AL rawdhah)	Ongoing
Update on intervention and activities in CCCM managed sites in January 2021.	Completed
Gaps and challenges	Ongoing

## DISCUSSION

### Agenda item 1: Update on partners interventions in IDP sites

The meeting started by discussion of CCCM partner's intervention in the sites each as planned and scheduled by its project timeline, the interventions were simplified as follow:

**International Organization for Migration (IOM):**

IOM is managing 23 IDP camp in Marib city and Marib Alwadi, providing CCCM activities to all HHs in the targeted sites including (training, community share activities, fire mitigation, distributions...etc). Flood prevention plan is set to mention among the upcoming activities in

Masna Adhban, Aljufainah and Alrumaylah Alquoz IDP sites in Marib city district and Alkuseef, Dehm, Husson Alhadi and Alrakza in Marib Alwadi district.

A regular monthly site monitoring system had also been mentioned from IOM side in all CCCM targeted side.

**Estijabah Foundation:**

Estijabah are managing 10 IDP sites in Marib Alwadi, with a regular site update and interventions Estijabah has also raised the upcoming interventions in the targeted IDP sites in care and maintenance services highlighting the electric and flood prevention interventions as a risk mitigation and a first aid training to community mobilizers (2 members male and female) in each site.

**Agenda item 2: Rapid response on the new displacement wave**

On 6<sup>th</sup> of Feb 2021 a new hostility has been raised in Sirwah district-Marib, this escalation has caused a new displacement of huge numbers of displaced families, as it is the second displacement for them to safe places within the Sirwah district. The local authorities represented by the Executive unit in Marib has announced the emergency situation for the new displacement, for a total of 1517 HHs which was from the camps of Sirwah district (Al-Zour - Al-Hayal - Al-Sawabin - Lafaj Al-Melh - Wadi Al-Atif) and the outskirts of the district (Bani Dabyan), and an internal displacement in Raghwan district.

Since day one the Rapid Response team of BFD started registering the displaced families along with IOM team reaching up to 1229 HHs displaced in (Sirwah, Aljubah, Marib city and Marib Alwadi). IOM, BFD, SHS, Human Access and other active partners are assessing the situation of the newly displaced person with defining the needs and gap in order to provide the right intervention in each targeted area, the following are a brief of intervention for partners:

**CCCM**

- Total of 1299 HHs displaced due to the ongoing conflict which 840 HHs displaced to Sirwah district, 61 HHs displaced into Aljubah district, 40 HHs to Marib Alwadi and 288 to Marib city based on IOM and BFD registration.
- On 15th and 16th Feb up to today 2 IDP sites has been hit (Alzur and Dhana) which 4 IDP site has been closed and families been relocated to other IDP sites, host community and other districts.
- Marib city district is located around 20K away from front lines (number of IDPs can't be counted) other treat for IDP sites in Sirwah are existed which one of IDP sites (Alrawdha-Sirwah) is about 5 km away from front lines and with the new displacement from other closed sites (840 HHs according to IOM registration) and increasing day by day.
- An appeal to the national cluster has raises to support and recruit an implementing CCCM partner in Sirwah district.

**Food**

Food intervention for new displaced IDPs happened for some and remain cases will be determined after allocation. The food targeting was based on food baskets and the intervention were from FSAC partners for the newly displaced IDPs. Estijabi Foundation planning for food baskets distribution.

## Shelter/NFI

SHS distributed 43 SNFI kit to 43 HHs in Alrawdha site, Sirwah district, and a verification for 373 HHs is conducted, IOM to conduct verification for newly displaced families in Marib city and Marib Alwadi districts. KSR distributed 200 tents to IDPs in Sirwah district.

IOM contingency stock is available for all partners who are willing to distribute for a total of: 822 NFI kit, 225 Tent, 800 ESK kit. SHS (UNHCR partner) planning to distribute 500 kits in Sirwah and Alwadi, 1000 SNFI kits will be received as well. Yemen Development (YD) Foundation is planning to create housing units/shelters in all Marib IDP sites.

## WASH

IOM is the leading WASH partner which a daily water trucking is provided to IDPs in Sirwah district (Alrawdha, Arak and Ajma) sites for a total of **1517 HHs**. 840 HHs new displacement + 677 HHs of old IDPs (298 HHs in Rawdha + 57 HHs in Arak + 322 HHs in Alajma); 151,700 L / day for the total population; 84,000L / day for the newly displaced.

## RRM

Since 8 Feb to 21 Feb 2021 RRM distribution:

- IOM: 235 HHs received RRM kits in Marib City and Marib Al Wadi districts.
- BFD: 169 HHs received RRM kits in Sirwah and Aljubah districts.

## Health Updates

BFD is supporting health facility in Al Rawdah IDP site, which they are looking to expand. BFD were the health partner in Alzur camp providing health unit services, a shell set down in the health unit and damaged the facility, moreover BFD moved the remain undamaged health instruments and devices to Alrawdha IDP site.

One person injured by a gun shot in his neck and reported with paralysis in Alzur camp. Another causality has been reported by the camp leaders of Alzur that an incident of a car has been targeted by hostilities attack belongs to a person name Yahya Sweleh and his son Helel had been affected by shrapnel from the attack, mentioning the suffering and the fled from one place to another.

## Agenda item 3: Plans for flood/ fire risk preventions.

In the upcoming months, the raining season will start and according to last year incidents reported in flood damaged for IDP sites in Marib districts, a prevention plan is set into place to determine the risk mitigation for IDPs living in sites which effects 12,232 HHs around Marib districts.

IOM conducted need assessment for all sites under its management (3 sites in Marib city and 5 sites in Marib Alwadi) and Estijabah with one site under its management. An intervention plan including support of SNFI, relocation and awareness to affected families set to place in order to mitigate the risk of floods and contain the upcoming situation. Executive unit to locate the remain sites with flood risk possibility and plan for other partners interventions.

**AOB:**

UNHCR representative (via online) has suggested to form a working group includes a team from each sector of intervention (CCCM, SNFI, Protection, WASH and Health) as a field team to keep on daily updates and monitor the displacement wave and services provided from other active partners.
