| **Welcoming / Introduction/ Action Points Review** | - Round table introduction was done among the participants.  
- UNHCR stated that new CP Officer who will lead CP meetings. Protection Officer/UNHCR: Igor Vorontsov <vorontsi@unhcr.org>  
- CARITAS and Trauma Center discussed on Joint Needs Assessment under MHPSS TF and MH needs of refugees in different areas was focused as the main point. Also, lack of information on the current gaps also challenges to plan any assessments.  
- IFRC is working with Trauma Center in terms of providing capacity building interventions including supervision for national society.  
- GBV Referral pathway was uploaded in the OneDrive.  
- UNHCR Data portal for Hungary is accessible [here](#). All sector leads' contact information can be found in the portal. | - Feedbacks required for GBV Referral Pathway / TF Members  
-                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                           |
| **Updates From the Field**      | - WHO: MHPSS Essential One Pager was created by MHPSS TWG in Poland. The importance of the one pager was highlighted and it is uploaded in the OneDrive. All members of MHPSS TF can use that one pager with their network. It is good document in terms of supporting global understanding on MHPSS. Also, 2 IASC guideline are translated and under proof reading process. 3 of them also under the translation process in addition to PFA one pagers. | - Sharing the assessment questionnaire / Melisa  
- Future Opportunities on call for proposals from WHO /Murat                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
MedSpot: Building psychologist volunteer network. Interviewed the candidates to evaluate their experiences and competences. Continued our psychosocial need assessment with the Ukrainian teachers. Diana Kathy is a great help to find interpreters to work with. Planning further cooperation with Trauma Center to support the teachers if they express need for that and also to support the volunteers of Migration Aid. Planning to offer them group supervision and one to one counselling.

UNHCR: UNHCR has presence in Zahony and conducting trainings with the support from Cordelia on PFA, Burn-out, PSEA and etc. Also, potential coordination meetings may be organized in Zahony.

Gestalt Association: The PFA trainings are on hold since WHO is providing online workshops/webinars. A list of MH workers was developed to provide support for volunteers working in the field. Also, gestalt therapist has access to free supervision from volunteer supervisors across the Europe

Segítségnyújtás: Volunteers who are working in the field having serious challenges due to being exposed to adversities.

Pszi Pon: 300 colleagues are offering MHPSS services voluntarily in 13 different languages.

Menedek: Training conducted for volunteers on migration health. Menedek visited shelters and identified a need to develop more programming for people staying in the shelter.

TdH: Focusing on service provision at 2 accommodation center in partnership with Trauma Center.

Information is requested for UNHCR 5W/ MHPSS TF

Refresher PFA Trainings to be planned / Professor – Murat

Practical examples from the field about people with severe mental health problems / TF Members
| AoB / Closure | - Prof. Dr. Miklós Kásler, Minister of Human Capacities, has appointed Prof. Dr. Tamás KURIKAY as the expert representative of Hungary to the Mental Health and Psychosocial Support (MHPSS) Task Force.
