In March 2015, conflict erupted in Yemen and thousands of refugees and migrants fled to neighbouring countries, including Oman, Saudi Arabia, Djibouti, Ethiopia, Somalia and Sudan. While the number of new arrivals from Yemen remain low in 2016, the ongoing humanitarian crisis inside the country remains dire. At the same time, large numbers of refugees and migrants from the Horn of Africa make the journey into Yemen.

Monthly Movements To and From Yemen

The data for this dashboard comes from UNHCR, IOM, partners and government sources. Arrival figures into Yemen are an estimation based on the number of encountered arrivals at reception centres as well as corroborated reports on other arrivals who did not present to the centres. Age and gender breakdown is based on encountered arrivals.
