Also, it has been argued that Rice system does not have all needed data on vulnerability. • NRC said they don't face this problem as NFIs are heavy and children can't carry it in most cases, and NRC uses the verification of numbers • SCI suggested to coordinate with WFP to conduct awareness raising sessions with children who accompany their parents to collect food and do not join schools. • WFP said that in the coming period only Food vouchers will be distributed, and vouchers are only given to adults! • UNHCR mentioned the Verification system taking place and the invitation for the community are taking place within these two weeks • As an initial point, SCI will document the cases of children coming to take the food, to share it with UNHCR and try to 	<p>Action point: SCI to coordinate with WFP for Education awareness raising activities in GFD area.</p>
