

## Access to formal education for refugee and migrant children residing in urban accommodation (apartments, shelters, and hotels for UAC, SIL apartments) - January 2019

**66%** of assessed refugee and migrant children 4-17 years old, residing in urban accommodation, are enrolled in formal school

Estimated **5,760** children out of 8,700 children 4-17 in apartments, shelters, and hotels for UAC, or SIL apartments

Enrollment rate of children 4-17 years old in urban accommodation, per region

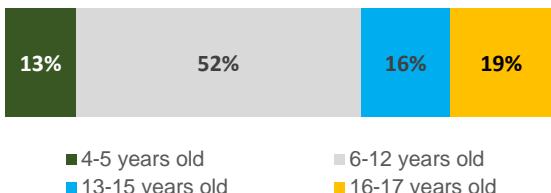

The assessment provides a snapshot of the enrolment situation of children 4-17 years in urban accommodation, during January 2019. A total of **5,935** children out of **8,700** were assessed: 3,834 in Attica, 594 in Central Macedonia, 319 in Northern Aegean, 300 in Crete, 241 in Thessaly, 260 in Epirus, 188 in Central Greece, 113 in Peloponnese, 70 in Western Macedonia, 16 in Western Greece. Assessed children were living in apartments (4,897), in shelters (599), and in hotels for UAC (439).

*Limitations: not all urban accommodation-providers communicated requested information for this assessment, and therefore the number of enrolled children (5,760) is an estimation for operational purposes.*

## Age and sex (children 4-17 years old)

### Age groups of enrolled children

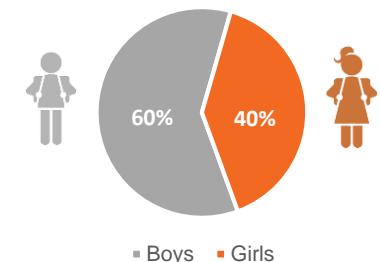

The percentage of enrolled boys is very similar to the percentage of enrolled girls.

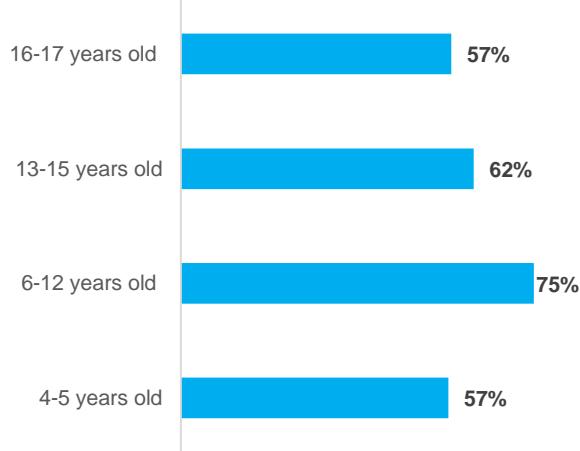

This is true for all age groups, except for the 16-17 years old, when the percentage of enrolled boys is higher.

Of the total enrolled children, the majority are boys, as the majority of assessed children are boys (60%).

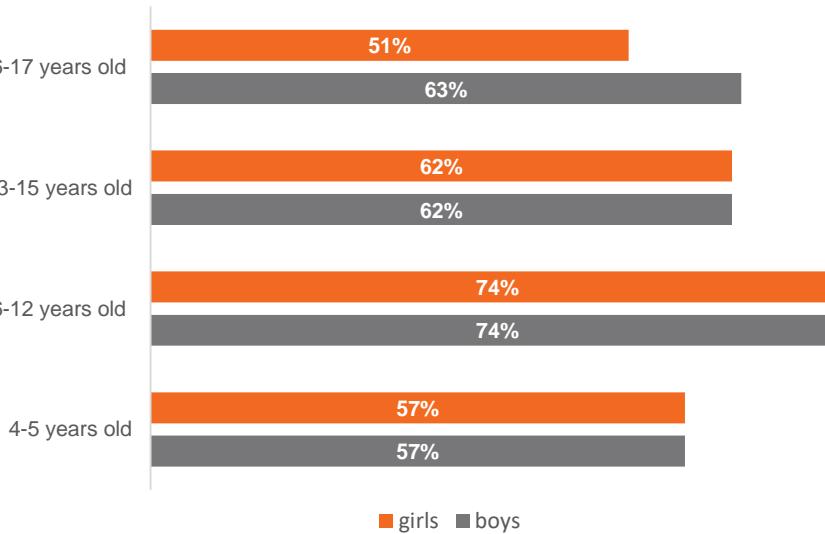

### Sex of enrolled children 4-17 years old

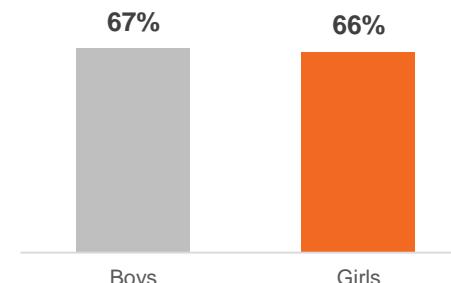

### Enrolment rate per age group

### Enrolment rate per age group, per sex

### Enrolment rate per sex of enrolled children 4-17 years old

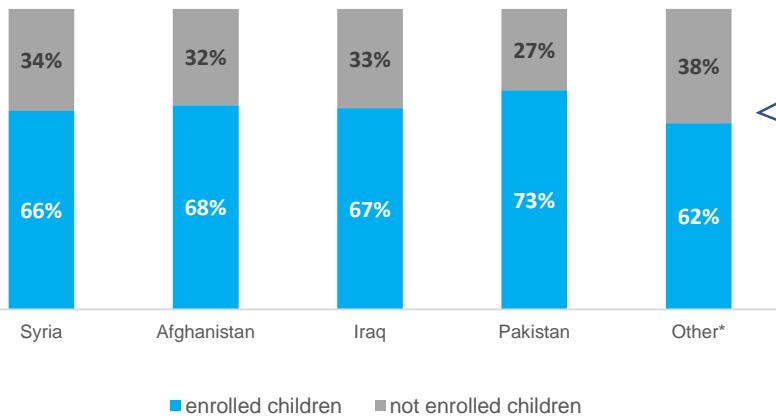

Out of all 5,935 children assessed, 15% were 4-5 years old, 46% were 6-12 years old, 17% were 13-15 years old and 21% were 16-17 years old.

## Countries of origin (children 4-17 years old)

Enrolment rate of children age 4-17 years old per country of origin

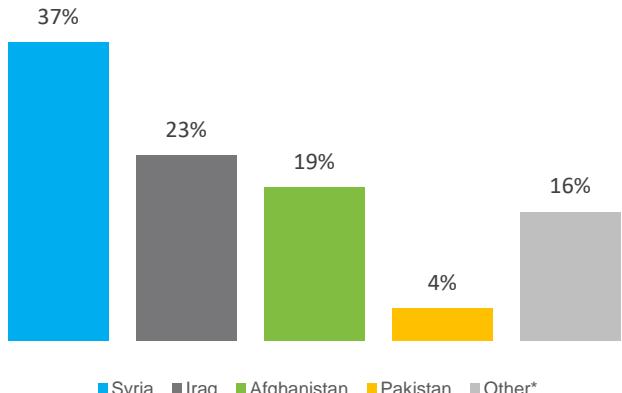

Enrolment rate is similar for all nationalities

Enrolment rate of boys and girls 4-17 years old per country of origin

Countries of origin of enrolled children age 4-17 years old

Boys and girls have similar enrolment rates. Girls from Afghanistan and Pakistan have a higher enrolment rate compared to boys. In the case of Pakistan, the higher enrolment rate of girls is calculated on 15 assessed girls only.

While the majority of enrolled children were from Syria, Iraq and Afghanistan, this is mainly due to the fact that the ratio was similar for children assessed.

### Types of formal education services available to refugee and migrant children

1. Regular schools: kindergartens, primary, secondary (gymnasium, lyceum and vocational education/EPAL)

- a. Zone of Educational Priority (ZEP) schools with reception classes
- b. Intercultural schools
- c. School with no special provision

2. Reception/welcoming classes for the education of refugees (DYEP) for children living in open accommodation sites\*

\*some children in open sites also attend the types in category 1

3. Kindergartens within open accommodation sites

\*includes the following countries: Algeria, Angola, Burkina Faso, Cameroon, Democratic Republic of Congo, Egypt, Eritrea, Ethiopia, Guinea, India, Iran, Kuwait, Lebanon, Morocco, Myanmar, Nigeria, Palestine, Republic of the Congo, Somalia, Turkey, Yemen as well as children who are stateless or whose country of origin was not reported or specified by the reporting actor

Out of all 5,935 children assessed, 37% were children originating from Syria, 23% from Iraq, 18% from Afghanistan, 4% from Pakistan while 18% were children originating from other countries, including stateless children.
