	<p>2. Protection, shelter, Health, education, food, and WASH were referred to service providers.</p> <p>o YFCA:</p> <ul style="list-style-type: none"> • Most sites and sub-sites are emergency shelters that consist of plastic sheets and some torn clothes. Meanwhile, some sites are transitional shelters. Most of the site is in dire need of Shelter such as sites in Maqbanah District etc. • The results of the assessment show food distribution is not sufficient in all the targeted sites. However, in case they receive food, the provided kit are not adequate due to a large number of family individuals. Food is a great challenge without a sustainable solution enabling IDPs to access regular sources of income. • WASH services insufficiency in most of the sites such as latrines, water provision, hygiene kits, the residents are suffering access to health services such as the medical centre, Hygiene kits etc • There is no health care in most IDP Hosting sites, there is a spreading of infectious diseases such as skin itch in 22 May Site in Al-Dhahar District IBB. 	
5	<p>Challenges faced CCCM partners:</p> <ul style="list-style-type: none"> • Lack of service providers to meet the acute need of the IDPs. • Recurrent Eviction threat. • Health Sector is one of the huge gaps that IDPs miss it. • A fuel crisis is another shock to the humanitarian situation. The ensuing fuel shortage has led to skyrocketing fuel costs in the informal market, long queues at petrol stations, and inflated costs for water, transport and some goods which led also to minimizing field visits. 	
6	<p>MDF presentation:</p> <p>MDF Coordinator has presented a brief summary about education needs in 8 districts in Taiz governorate as the result of conducting field visits to verify the data and information of education needs in the above-mentioned districts. MDF found Schools and students have been suffering from the lack of education services and are really in need of humanitarian assistance and intervention. Furthermore, MDF presented some examples of the current situation of those schools and students such as; some IDPs settled schools and used its latrines in which impacted of the education process especially students, some IDPs families are living inside whereas the students are studying outside the school and most of the students are studying in the yard of the school under the heat of the sun, under the trees. Finally, MDF mentioned conducting coordination with all stakeholders as Official authorities in order to fill and resolve these issues in which related education process.</p>	
7	AOB:	

	<p>YFCA:</p> <ul style="list-style-type: none"> • Nominating a new main site by Taiz SCMCHA that is called Al-Madinah Alsakaniah Site in Maqbanah District. • Add One Mall site as the main Site instead of Near Al-Rayian School because One Mall is including more HHs than Al- Raiyan School. • Food SCN Coordinator appreciated mentioning him as CC during referrals mechanism with food partners.
